

PROPERTY MANAGERS & BUILDING OWNERS
PLANNING A PAINTING PROJECT?
REQUEST A FREE PROPERTY ASSESSMENT

Substrate Condition Report

We will identify existing problems rusting surfaces or substrate deterioration due to water damage etc. that require more than basic prep, we will document it photographically, and provide prep suggestions in the final spec book.

Detailed Specification Book

Each project specification book includes prep suggestions, a complete schedule, technical data, and a complete Product list, including product system recommendations.

On-Site Job Walks

A coordinated job walk simplifies the bidding process and ensures that all prospective paint contractors are bidding with the same understanding of the needs and specifications of the project.

At the close of your job, your Benjamin Moore Rep will provide you with a complete project archive that includes

- ✓ A complete record of products used on specific substrates
- ✓ A comprehensive color book complete with color chips and a detailed record of the specific surfaces on which they were applied
