

FRENCH GUIANA

LANGUAGE: FRENCH / SPANISH

THE COUNTRY

French Guiana is an overseas department of France. The Guiana Space Centre, which is now the European Space Agency's primary launch site near the equator, is there. The population is 302,000, with most people living along the northern coast. There is an "Unreached People Group" that lives in the jungles that border Brazil and Suriname.

THE WORK

The work is positioned for growth, with 244 constituents, 4 churches, and 4 ministers. There are church services in French, English, and Spanish. French Guiana has a great need for a missionary presence. The vision is to see what has begun develop into a thriving work.

MINISTRY OPPORTUNITIES

There are opportunities in all areas of ministry, including evangelism, preaching, teaching, training, music, children's ministry, and much more. The goal is a team that helps establish and grow the work in French Guiana. Truly, the opportunities are endless, and the need is great.
