Tips and Tricks

- 1. Use the search bar to look for a class. It will also give you the course information. Or use the course number.
- 2. Use the column of your upcoming grade level. Ensure that you have two semesters entered for each class. Example: H DL US History 1, H DL US History 2
- 3. You will need to plan 16.000/12.000 credits (located at the top of the column). Each semester course = 1 credit.
- 4. If you can't find a course in the drop-down menu it might already be entered on a future year. Delete it from that year.
- 5. You MUST CLICK SAVE or your work will be lost.
- 6. A message will show up that you don't have enough credits planned. Just Click OK.
