ARTIST BIO

We Are Makers, sometimes called WAM, is the love project of Chelsea and Ryan Maker. Hailing from each coast of the US, the duo met somewhat in the middle, in Nashville, TN. There was an immediate attraction and undeniable chemistry that sparked many creative projects together.

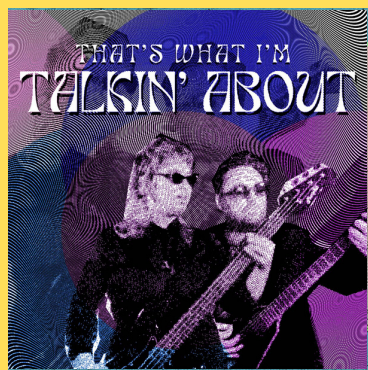

In 2016 they packed their few possessions up and took an extended road trip through the south towards the West Coast. They made a quick stop in Sedona, Arizona, to elope at the top of Bell Rock and finally settled in Los Angeles. In a peaceful Southern California backhouse nestled in Pasadena, WAM was born.
