

Our team of more than 9,000 employees, 2,300 physicians and 550 volunteers at Mount Carmel Health System is committed to the quality care of our patients and their families. Together, we serve more than a million patients each year.

Mount Carmel has received local and national recognition for quality of care, colleague and patient satisfaction, community involvement and philanthropy. Mount Carmel is also dedicated to education, with offerings that include ongoing continuing medical education opportunities, six physician residency programs, and one of Ohio's largest undergraduate, graduate and doctor of nursing programs.

Each year, Mount Carmel provides tens of millions of dollars in uncompensated benefits to the community. We are also actively engaged in the community through business, civic and social service organizations and through our financial support of other not-for-profit organizations and social services agencies.

Mount Carmel is a proud member of Trinity Health, one of the largest Catholic health care delivery systems in the nation.

Mount Carmel Grove City / Mount Carmel Franklinton

Mount Carmel Franklinton

Mount Carmel Grove City

At Mount Carmel, we are redefining and transforming our health system — how we work and think, and how we care. The projects at Mount Carmel Grove City and Mount Carmel Franklinton are a small part of this vision.

With growing demands for healthcare in Grove City, Mount Carmel responded by transferring inpatient services at Mount Carmel Franklinton (formerly Mount Carmel West) to the community's first full-service hospital — Mount Carmel Grove City. This 210-bed hospital features a Bariatric Center of Excellence, Primary Stroke Center, a 24/7 Emergency Department, Heart and Vascular Services, Maternity Care — including a Level III NICU managed by Nationwide Children's Hospital, integrated procedural floor for inpatient and outpatient surgeries, and a comprehensive cancer center.

Mount Carmel Franklinton will focus on health and wellness and feature a full-service, 24-hour Emergency Department, and outpatient services including chronic care clinics, women's health, primary care, lab and imaging. In addition, the Mount Carmel Franklinton Campus will be a vibrant educational campus and serve as the centerpiece of a shared revitalization effort that includes the city of Columbus.

Mount Carmel East offers a wide variety of high-quality services and continues to grow along with the needs of the communities it serves. We have made an ongoing commitment to provide our patients with access to the most experienced and talented medical providers and state-of-the-art technology, helping set our facility apart. Our hospital features a fully integrated Heart & Vascular Center, a Comprehensive Stroke Center, a dedicated Women's Health Center, maternity center, a Network Cancer Program and a comprehensive orthopedics and spine program. We are also home to Mount Carmel's Level II Trauma Center, providing critical access to this vital service to the eastern half of central Ohio.

Mount Carmel East has earned Comprehensive Stroke Center Certification — the highest level of stroke certification available — from The Joint Commission and American Heart Association/American Stroke Association. They've also been recognized with the U.S. News & World Report Regional Best Hospital badge and earned "high performing" ratings in heart failure, colon cancer surgery, COPD hip replacement and knee replacement procedures.

Mount Carmel St. Ann's has always been the sole, full-service inpatient hospital in northeast central Ohio. But thanks to a recent expansion, it's transformed into a regional medical center with a long list of patient-centered facilities and services.

Today St. Ann's is home to a fully integrated cardiovascular center of excellence with open-heart capabilities, a Primary Stroke Center, a dedicated Women's Health Center, a Maternity Pavilion that welcomes nearly 4,000 new babies every year, an award-winning Network Cancer Program, the first Cyberknife® robotic radiosurgery center in central Ohio and a dedicated orthopedics and spine unit.

These state-of-the-art facilities and capabilities, along with our exceptional team of medical professionals, allow Mount Carmel St. Ann's to provide award-winning, patient-centered care.
