

## ANATOMICAL ACHILLES CONSTRUCTION

## GUSSETED TONGUE

Prevents migration across the instep

## PROFLY™ MIDSOLE

Gives a cushioned landing and propulsive toe-off

## ENGINEERED MESH CONSTRUCTION

Delivers breathable comfort

## CARBON FIBER PLATE

Delivers a smooth transition through the gait cycle

## RUBBERIZED EVA OUTSOLE

Provides lightweight ground contact and responsive cushioning

# CARBON X 2

GO THE DISTANCE. GET THERE FAST.

Positioned as an endurance racer, the **Carbon X 2** delivers the same propulsive speed as its predecessor in an adaptable silhouette geared for training and racing alike. Engineered with a responsive, carbon fiber plate and aggressive Meta-Rocker, this performance shoe is a formidable competitor. The epitome of long-range weaponry, the **Carbon X 2** pairs softer, lighter foam with the same rubberized foam outsole as the last iteration. Scrutinized with a focus on fit, the **Carbon X 2** employs a refined collar shape, notched tongue and engineered mesh upper with embroidered TPU yarns and extra reinforcement around the laces. Get ready for an inherently soft, stable and responsive ride.
