DISCLAIMER:

**HIGH FILTRATION MASKS
BY**

Sasha

**are not designed to be used as a replacement for
the correct and certified medical grade PPE
(Personal Protective Equipment).**

**This product is designed for personal use only and
not to replace medical grade masks or to be used
in medical settings.**

**This product is not intended to be used as a substitute
for following the current guidelines provided by the
government of maintaining social distancing and
hand washing.**

**However, if worn correctly it may help limit the
negative effects of microdroplets in the air.**

**Construction of HIGH FILTRATION MASKS BY *Sasha* is
based on the latest World Health Organization
guidelines for homemade masks released in
JUNE 2020.**
