

Getting Started with the Driver•i App

mobileapp-help.netradyne.com/hc/en-us/articles/1500006056061-Getting-Started-with-the-Driver-i-App

Download Driver•i App

Driver•i App is available in Google play store and Apple app store. Here are the links:

- Play Store: [Download](#)
- App Store: [Download](#)

The compatible iOS And Android versions are:

- iOS 13 & above.
- Android 7 & above

Usage of Driver•i App

Driver•i App helps you view all your driving data at any point of time effortlessly. This data includes:

- Your GreenZone Score
- Your Rank among other drivers in your Group/Fleet.

Note:

If you are part of a selected Driver Group, your rank is in relation to other drivers in the Group. Otherwise, your rank is computed based on the performance of all drivers in the Fleet.

- Alerts and DriverStars generated by you for the selected time period.
- Coaching Sessions shared by your managers.

Using App Daily

You can check the App for any notifications in the middle of the day. You can also finish watching the alert videos to complete your Coaching Sessions when you can during the day.

To view the GreenZone Score at the end of the day, you must have driven the vehicle for a minimum of 30 minutes during that day. For more information, see [GreenZone Score](#).

Important

You must not use the App while driving as it may lead to an unsafe situation.

Using App to Analyze Driving Performance

Your GreenZone Score is displayed along with the Fleet Goal. The app also displays your rank among other drivers in your Fleet/Group. You will also receive notifications when you have been awarded DriverStars for safe driving behavior.

A Weekly Review Session is triggered by the system based on the alerts you generated in the past week. This session contains up to a maximum of three alerts that most impacted your GreenZone score. You must complete the Weekly Review Session in seven days. This will help you improve your performance and your GreenZone Score. For more information, see [Weekly Review Session](#).

Functions of Driver•i App

The various screens that you see on the Driver•i App and their functions are as follows:

Dashboard

Open the Dashboard screen to view your GreenZone Score, Alerts and DriverStars generated by you, and any other details that impact your GreenZone Score. This screen shows you the overall driving performance for the selected duration.

Events

Open the Events screen to view complete information about all events generated by you in a specific duration. It will help you analyze your driving behavior and prevent you from generating an Alert the next time you drive in such a situation.

Weekly Review

Open the Weekly Review screen to view the Coaching Sessions that have been assigned to you based on your driving behavior in the past week. You can watch the alert videos to complete the pending Coaching Sessions here.

GreenZone

Open the GreenZone screen view your GreenZone score, Potential Score, High Impact Events, Total Minutes Analyzed, Green Minutes%, DriverStar, and Average Following Distance. You can also view the score that you could have received if you had not generated some of the Alerts.
