

TIERRA PURA

Kambo

My name is Lumen, and I have been carrying these sacred medicines and serving Texas communities since 2020 - I am so excited and honored to hold space for you in this upcoming journey! At the ceremony, you will have the opportunity to experience Hape, Sananga, and Kambo. These are ancient tribal medicines originating in the Amazon, and have been utilized for hundreds (if not thousands) of years for multiple healing purposes. Kambo in particular is a powerful ancestral medicine that works to cleanse, heal, and realign one's mind, body, and spirit. It facilitates a profound clearing and strengthening so that one may operate from a peaceful, aligned, vibrant, and empowered center.

Working with this medicine does require some preparation, and I will be evaluating your medications and health conditions to ensure that this medicine is appropriate for you, and that you have a safe journey. Please save my number in your phone for our upcoming chat (254-749-8989) and continue with the following in order to participate:

MEDICINE INTRO GUIDE

I have created a pre ceremony guide which outlines some of the many benefits of this medicine and includes journaling prompts to help set your intentions for the work. Please review and explore your intentions with heart centered, open curiosity.

REVIEW CONTRAINDICATIONS

I have attached a list of generally known Kambo contraindications. Please review and observe if any of these apply to you. Note that I do offer a modified treatment (gentle Kambo), and that some of these contraindications may be waived if safe and appropriate (Ketamine in particular for Within Clients).

COMPLETE INTAKE FORM

Please fill out this intake form. It is imperative for your safety that you are completely honest in disclosing all medications and health conditions. This will allow me to review and evaluate which medications are safe for participation prior to our phone call. Please note that if Kambo is not a good option for you based on pharmacology or health, or if you simply do not wish to receive this medicine, you will still be invited to receive Hape and Sananga if desired.

CEREMONIAL PREPARATION VIDEO

I have created a 30 minute presentation outlining the different medicines, what to expect during ceremony, and how to best prepare for the work. This video does not require your visual attention if you are busy - you can listen to it in the car like a podcast if you wish. Note that there are segments discussing traditional Kambo vs gentle Kambo - the gentle option is what will be offered if needed due to contraindications or if a lighter realignment is desired. If you have already received a traditional treatment and desire to work with targeted chakra points, we will discuss this option in our phone call.

Please listen to this
video prior to our
scheduled call.

Additionally, I will be bringing extra Hape and Sananga to the event. These are excellent tools to keep your mind and energy clear, and for continuing the healing journey. For those who wish to take some home and continue their work with these medicines, I will be providing a tutorial after the ceremony on how to self administer these medicines.

COMPLETING REGISTRATION

The final step for registration is to schedule and complete a phone call with me using [this link](#). We will discuss your journey, intentions, plan your treatment, and answer any remaining questions you may have.

Within Clients: If you connect deeply with Kambo and wish to continue developing your relationship with it beyond your ceremony credits at Within, please note that I offer a discounted rate on my group offerings for people who participated as part of their Within package. I do also occasionally travel out of state to work with people privately if needed, so please inquire if this is something you desire to support your expansion.

My Personal Clients: A deposit is required to reserve your desired date/time (usually \$50-100), with the remainder of the agreed upon energy exchange being due at the conclusion of the session. Please note that deposits are nonrefundable. If 48+ hours notice is given, the deposit may be applied once to a later treatment within one month of the originally scheduled ceremony date.

**Thank you for your healing journey,
and for the medicine that you are!**
