Local Operating Procedures Packet:

The following are required local procedure documentation, to be developed according to local specifics and implemented in the station. LOPs must be available to all employees in addition to all other company publications.

Local procedures should be reviewed annually, or upon a relevant change of process, customer, references, etc. Station management is responsible for the maintenance of this document, and all LOPs.

LOP - GSE OUT OF SERVICE PROCEDURES

It is a requirement for the ramp/warehouse to create local procedures for reporting, locking and tagging out of service ground support equipment. The process must ensure that unserviceable equipment does not return to service until the deficiency is corrected.

Describe the following when GSE becomes unserviceable:

- What are the steps taken and who to notify of equipment that is not serviceable?
- How is GSE rendered immobile (Locked Out)?
- Where are the tags and who is responsible for tagging the equipment out of service?
- Who can return the GSE to service?
- 1) Complete ECR and send to <u>SEAMX@WFS.AERO and SEAMGR@WFS.AERO</u>
- 2) Any Employee noticing defects with GSE MUST RED TAG Equipment.
- 3) Process:
 - a. Red Tag is completed and attached to the steering wheel or ignition switch
 - i. Highly Visible for non-motorized equipment (dolly tongue, handle, bagacart tongue)
 - b. Contact Duty Manager/Supervisor to check equipment to confirm red-tag status i. Provide location and asset number
 - c. Duty Manager/Supervisor to ensure Red-Tagged unit is included on daily ECR and provided to GSE Team at seamx@wfs.aero and seamgr@wfs.aero,
 - d. If red-tagged equipment is impacting operational performance, a phone call MUST be made to GSE Patrick Offutt at 206-327-2702 or Emilio Manahane at 253-459-2557.
 - e. If the GSE is safe to drive, it should be taken and parked in front of the GSE Shop.

Equipment should only be pulled by other GSE and NEVER PUSHED.

Equipment MUST only be pulled by means of tow strap or chain found in the back of U0412, VAN361, VAN305. Pulling equipment should only be performed by Supervisors, Duty Managers or GSE Staff, unless delegated to Agents.

IF it is not possible to pull the GSE due to its location, a GSE MX MUST move or supervise the movement of the GSE.

f. GSE Tags are located in ALL Ramp Vans. Managers & Supervisors are responsible for tagging out the GSE

NOTE: ONLY GSE MX can remove the red tagged GSE and return to service and informing Operations via email or voice mail. GSE's that are cleared to return will be parked on the east side of the shop, right next to the perimeter road and jersey barriers. When to Red Tag:

- -Unsafe to Operate - Leaking Fluids - Not Operating Normally -
 - Flat/Worn Tires - If it is questionable, red tag it.

** IF a unit needs service but is not a safety hazard (ie cosmetic issue) do not red tag. Add to ECR for record and future reference**

LOP - CUSTOMER RECORDKEEPING

It is a requirement for the warehouse, ramp or passenger service to create a local procedure for record keeping which defines what records are kept, for what carrier and 1) where they are kept, 2) who has access, 3) the retention/destruction schedule, 4) how they are kept safe/secure

Customer or Air Carrier	Records Kept	Location of Records	Access/Safe/Secure	Retention/Destruction
AA American Airlines	Flight Folders (Import & Export), TSA 30-day (AWB MNFST CCSF IAC) FAA Accepted and Rejected.	AA MOD/SOD Office	Access	5 Years
BR Eva Airways	Flight Folders (Import & Export), TSA 30-day (AWB MNFST CCSF IAC) FAA Accepted and Rejected.	BR File Cabinet	Access	30 days
QR Qatar Airways	Flight Folders (Import & Export), TSA 30-day (AWB MNFST CCSF IAC) FAA Accepted and Rejected.	QR File Cabinet	Access	90 Days
EK Emirates Airlines	Flight Folders (Import & Export), TSA 30-day (AWB MNFST CCSF IAC) FAA Accepted and Rejected.	EK File Cabinet	Access	30 Days
OZ Asiana Airlines	Flight Folders (Import & Export), TSA 30-day (AWB MNFST CCSF IAC) FAA Accepted and Rejected.	OZ File Cabinet	Access	30 days
HU Hainan Airlines	Flight Folders (Import & Export), TSA 30-day (AWB MNFST CCSF IAC) FAA Accepted and Rejected.	Hainan Cabinet	Access	30 Days
IAG Cargo British/Aer Lingus/Iberia	Flight Folders (Import & Export), TSA 30-day (AWB MNFST CCSF IAC)	IAG File Cabinet	Access	30 Days

LOP - SCALE CALIBRATION

It is a requirement for the cargo, express or ticket counter locations (if scales are maintained by WFS) to identify, by scale, the calibration requirements, who the authorized vendor is and where to report issues. Also note if scales are checked daily and the local steps. If scales are owned by the air carrier or airport operator, please identify that in the Remarks.

Scale Number or Identification	Location	Calibration Requirements / Checks /Timeframe / Remarks
1005222911	Inside the office next to TK work station.	Calibration checks done daily.
000041816	Unscreened area 10ft scale.	Calibration checks done daily.
000041810	10ft scale next to screened cargo area.	Calibration checks done daily.
000041812	20ft scale next to aoa access door	Calibration checks done daily.
SBH21101N001	Located outside of MOD window	Calibration checks done daily.
434542	Scale located inside warehouse, by OZ back door.	Calibration checks done daily.
Who is the scale repair/calibration	on vendor and their contact inf	ormation?
