

**MORE
THAN
FASTENERS**

pgb-Europe is a specialised supplier of fasteners, fixings and hand tools.
With our broad and deep product range we offer our customer a complete
solution for every situation.

We breathe fasteners

Fasteners and Fixings. From small screws to ETA approved construction bolts. From nylon plugs to seismic tested anchors. These are the visible or invisible connections that keep building projects together. They are indispensable links. For pgb-Europe it is our daily

aim to provide our customers with quality products and a matching service. **We have been an established supplier and manufacturer of fasteners and fixings for more than 60 years.** It has been in our genes for 3 generations. **We breathe fasteners.**

pgb-Europe is...

MORE THAN FASTENERS

With our extensive range of products, we provide everything our customers need for their everyday and specific needs when it comes to fasteners. However, our service goes much further than just the product.

Personal service and streamlining our customer service are central to us. pgb-Europe has been active for a long time in various committees at a local and European level so that we are always up to date with specific guidelines and standards.

7 BRANDS

In order to distinguish our wide product range, pgb-Europe has seven of its own brands with their own look and feel. There is always one constant. "The commitment to Quality by pgb..."

OWN PRODUCTION

Through its own engineering, production facilities and strategic partnerships, pgb-Europe can keep its finger on the pulse to follow market developments from the source and develop innovative products.

LARGE STOCK

Thanks to our optimised stock management with more than 30,000 directly available items and 80,000 indirectly available items, you, the customer, can benefit from our logistics and e-commerce solutions.

QUICK AND FLEXIBLE DELIVERIES

To ensure a smooth delivery of your order, we work with strong partners for flawless transport.

Our mission

With reliable quality products and a corresponding service, we want to relieve our customers of their worries and provide them with a cost-effective solution.

- Excellent product quality
- High availability of products
- "Customer first" attitude

management**

‘We go for long-term partnerships with a clear win-win situation created by our added value.’

Marc Pennoit

**“We are a team of
dedicated specialists
who complement
each other well.”**

Johannes Heye

A perfect mix of 60 years of experience, high product quality and a professional approach.

A lot has changed since our parents founded the company in 1956 as a small one-man business... but the passion for the product and customer service has remained the same.

Over the years, pgb-Europe has grown into an international player in the field of fasteners and fixings by consistently focusing on product quality, technical knowledge and customisation for each customer. Together with an experienced and passionate team of employees, our family remains committed to long-term partnerships. We want a clear win-win situation by always providing our products with added value.

Luc & Marc Pennoit

1. COMPLETE ASSORTMENT

With over 80,000 article references, we are happy to offer you a one-stop solution. A familiar service and proven product quality are under one roof with us.

2. TAILOR-MADE TRAINING

pgb-Europe offers tailor-made training sessions and product demonstrations. The theory is supported by a number of practical examples and demonstrations.

3. OWN PRODUCTION

For years, our various fasteners have been professionally manufactured according to our technical drawings and quality requirements.

We produce ETA-approved anchors in our own factory in Poland. Various strategic partnerships ensure our constant quality and competitive price.

4. MERCHANDISING SERVICE

Our own experienced merchandisers ensure that your rack with self-selected fasteners and anchors always looks perfect and up-to-date.

5. LARGE STOCK

Thanks to our highly optimised stock management, you, the customer, can benefit from our logistics service and e-commerce solutions. In addition, pgb-Europe offers a delivery rate of 97%.

6. QUICK AND FLEXIBLE

For us, stock management means optimising the order quantity, the stock and the location of the stocks. Through an intelligent stock management strategy, pgb-Europe is able to offer various options for the location of delivery.

Expertise & service, our daily commitment

“Our batch management system ensures full traceability of our products throughout the entire logistics process.”

Frederik Pennoit

QUALITY: IN PRODUCT AND SERVICE

An important constant in pgb-Europe's quality policy is the quality of our products and business processes. We have been ISO 9001 certified since 2002. Since then, our quality manual has been constantly refined.

SUPPLIER RATING

Product quality begins with a correct supplier selection. Potential suppliers are therefore thoroughly audited and personally visited. We use a certification matrix to ensure constant evaluation so that we can guarantee you certainty.

A THOROUGH CHECK AT THE START

An initial quality check takes place before our products leave the factory. Our products are checked at every step of the production process. Incoming goods undergo a visual check on e.g. product marking, labelling, etc. Random inspections take place regularly. Thanks to an extensive batch management system, every product is always fully traceable.

STATE-OF-THE-ART QUALITY CONTROL

Depending on our inspection plan, different characteristics are checked. In our quality control room we have state-of-the-art equipment to carry out dimensional, mechanical and metallurgical tests.

**‘With our modern
warehouse solutions, we
are a pioneer within our
industry’.**

Vincent Pennoit

A complete package

LESS TALK NOW, MORE PRODUCTS!

“pgb-Europe is proud to offer a complete package to our customers. Thanks to our stock of more than 30,000 available products, you as a customer can benefit from our logistic and one-stop-shop solutions. In addition, product quality and the accompanying service are important. So you can enjoy our fast and flexible delivery options, ranging from on- and off-site to remote-site deliveries.”

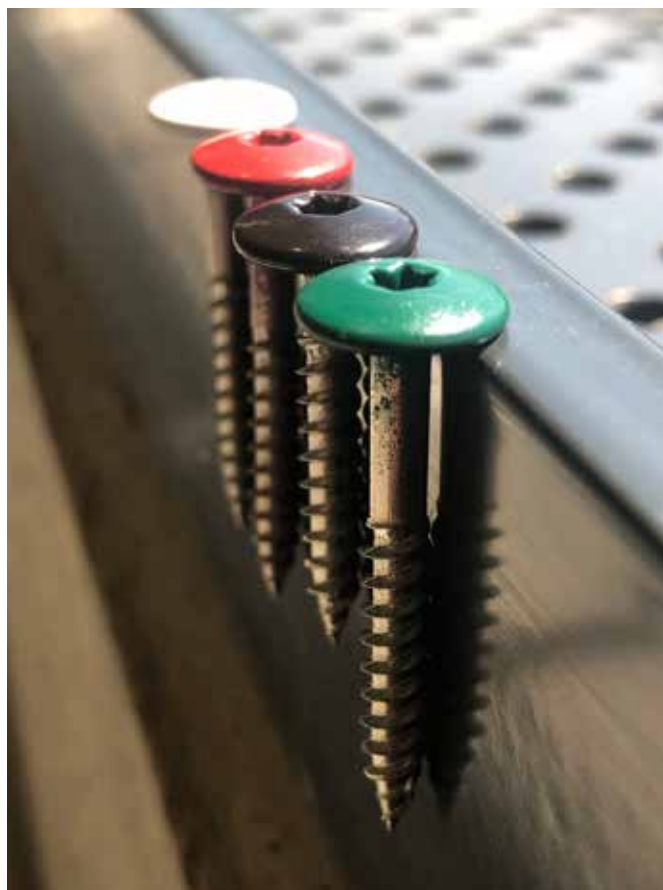

Luc Pennoit

pgb-fasteners®

INTELLIGENT FASTENING SOLUTIONS

A complete range of DIN, EN and ISO standardized fasteners.... with a recognizable brand name. For decades we have been working on a unique recognisability with our uniform packaging: the boxes with the (yellow) squares.

HAPAX®

THE PROFESSIONAL QUALITY SCREW

The patented and CE certified Hapax wood screws are designed by Luc Pennoit and produced under strict quality control in our production facility in Vietnam. The triple thread point and the geometry of the countersunk milling ribs under the head are patented. Partly as a result of the above and an optimised thread, we achieve a low tightening torque and still a high pull-out value.

The special BlueTop coating is RoHS-compliant and offers more corrosion resistance than conventional galvanisation.

TAILOR-MADE TERRACE SOLUTIONS

The Hapax FIXING PRO is completely invisible, aesthetic and quick to use. With the Hapax foundation system, you can easily lay a fully ecological terrace.

Smart[®]

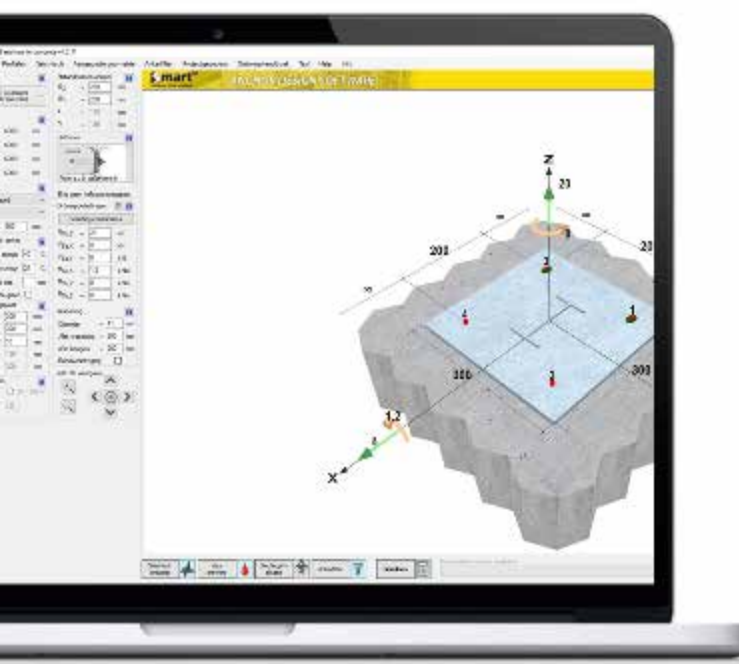

A COMPLETE SOLUTION FOR EVERYONE

SMART comprises a complete range of light, mechanical and chemical anchors supported by numerous European test reports.

At our Polish site, pgb-Polska, we produce state-of-the art plastic plugs such as universal plugs, nail plugs, construction plugs and insulation plugs with ETA approvals.

CALCULATION SOFTWARE THAT MAKES A DIFFERENCE

Our SMART Anchor Calculation Software provides safe and reliable support for the calculation of simple to very complex anchorage situations. Thanks to various modules, the software can be used for various anchorage applications.

pfs⁺ - screw[®]

PROVEN PERFORMANCE

The PFS+ professional wood screws are ideal for wood-to-wood applications. The special intersection point ensures fast installation and reduces the risk of splitting of the wood. In addition, an optimised pitch ensures fast assembly and high pull-out values. The PFS+ wood screws are CE certified and produced in our production facility in Vietnam.

THE SOLUTION FOR ALL YOUR WOOD PROJECTS

PFS+ construction screws are specifically designed for timber constructions, roof structures truss-string connections,...

These screws are especially popular with the professional user and are available in 2 types. The PFEVTG has a countersunk head where the PFETTG has a flange head. The flange head has the advantage that the wood can be pulled tighter towards each other, which results in higher pull-through values.

FG

WOOD CONNECTORS[®]

A SOLID BASE FOR ANY WOOD PROJECT

Under FG Wood Connectors, pgb-Europe distributes a complete range of wood connections such as beam supports, nail plates and corner anchors. All products are individually barcoded and presented in a unique way.

SHARPWARETM

DRILLS AND BITS FOR ALL MATERIALS

pgb-Europe is more than fasteners. A beautiful range of hand tools, drills and bits complete our range. The tools and drills are made in renowned European factories under our supervision.

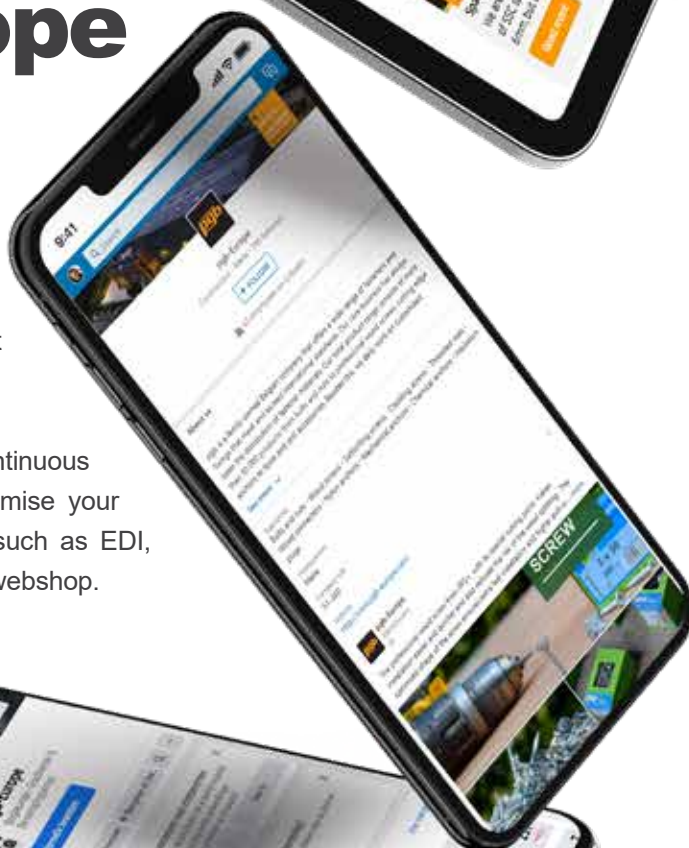

Stay connected with pgb-Europe

Did you know that it is easy to stay digitally connected to pgb-Europe via one of our many digital channels? Our websites, webshops, applications and social media enable you to stay in touch with us at all times and place your orders 24/7 without leaving the comfort of your home or office.

Global digitisation remains on the rise. pgb-Europe continuous to offer various digital integration possibilities to optimise your purchasing process. System-to-system connections such as EDI, scanning and e-invoicing are standard features of our webshop.

At pgb-Europe,
we are committed
to green energy
on a daily basis.
