SIRVIENDO EN ALASKA

Friends,

Greeting from the snowy Alaska. Very different then anything we have ever experience 1F is very cold but they say winter starts until December 21st so the best is yet to come. Long dark days that let some sun shine from 9:30am to 3:30 pm and some times the sun does not come out. With all this God is good and we are able to adapt and learn from the expert in the matter our Alaskan brothers and friends.

 JESUS THE GIFT 

October-December ,2020

This trimester has been interior mission oriented we took a team from MCA church to Houston Alaska and took fire wood to widows in Tok, Alaska.

Tok, 320 miles north east of Anchorage with a population of over 1,500 habitants and with record temperatures of -78 F. We have a church with about 15 members and more than 7 villages in the surrounding areas. As you can imagine with very cold temperatures and the need to keep homes warm, wood is a must. Kore Labbe lead Pastor of Gateway Christian Community in Tok shared with us the need of a couple of widows that did not have enough wood for the winter and there was no wood being sold in the Tok surrounding area.

Delivering wood to second widow

Thank God for a great opportunity to bring fire wood to 2 widows that did not have enough for the winter. The record low temperature in Tok is -78F. Wood is a must

Val one of the widows that received fire wood

640 Miles trip.
Temperature -10F

Only 15 members in the church but praying fo ra miracle.

!!!!!!! MISSIONS OPORTUNITY !!!!!!!

They do not have a worship team so they play music in a video audio system but they would like to have a missions team that would come and worship with them LIVE and be part of many other evangelism opportunities in the villages and surrounding areas. Even going in summer to the wood around Tok area in ATV's and cutt wood for people in need for next winter.

Houston AK, a town with a population under 2,500 people and with the arrival of a new Pastor at Hilltop Assemblies of God in mid 2020 and a church that did not had a pastor for a while needed a lot of work. We are thankful for 15 MCA church members that helped us join the Houston church members too clean as much as we could. We were blessed for having the opportunity of serving together.

HOUSTON WE HAVE A PROBLEM

Helping newly appointed Pastor to clean and get church ready before snow arrived.

Pastor Kent who is pastor at Hilltop Houston would like to have an arch competition to reach people from the area Interested on being part of this trip? Let us know.
