

# Will Sullivan

**Hungry dogs run faster.** A knockdown shooter with great range and form to match, Will Sullivan is a certified difference maker who's always on the prowl every time he takes the court for the Riverside Panthers. Turn on the tape and it's plain to see how Will's quick and smooth release, sound fundamentals, and ability to get open make him a critical asset for his team and help him effectively convert from beyond the arc. Not only does he boast keen instincts and sound decision-making with the ball in his hands, but his natural athleticism allows him to run the floor with ease, help out in transition, and perform in an uptempo system at the next level.

Will knows better than most that it's not who you are but what you're willing to do, and he gives his all to help his team get the W, bringing constant energy and consistent effort from whistle to whistle. When his squad doesn't have possession, this translates into a scrappy, tenacious defender who forces turnovers and causes problems for opponents looking to push the ball up the floor. A player that any coach would want in their huddle, Will has the positive attitude, smarts, and outgoing personality to elevate his teammates and motivate him to make the most of any opportunity that comes his way, both in the classroom and in the game of basketball.

*I'm looking forward to an opportunity to play basketball in college because it's the sport that I love and it gives me another opportunity to lead and grow with a team. I like to orchestrate the offense to create scoring opportunities as well as find my own shot with the dribble.*
