

Safety Bulletin

Scope: Americas
Applicability: All LOBs
Issued on: 19NOV24

Safety Never Takes a Holiday

Important Safety Reminders for the Holiday Season

1. Fight Fatigue

The holiday season brings festive cheer, but also higher flight volumes and longer hours. Fatigue can easily set in. Stay alert for symptoms of tiredness in yourself and your coworkers, such as:

- Lack of attention
- Cutting corners
- Poor concentration
- Irritability
- Slow reactions
- Mistakes

Prioritize rest and alertness to stay safe and effective on the job

2. Drive Safely – SLOW DOWN

Increased holiday traffic and unpredictable weather conditions can make driving more hazardous. Be mindful of your speed and remember that heavy equipment takes longer to stop and maneuver. Drive cautiously and keep safety top of mind.

3. Only Perform Certified Tasks

With the holiday rush, it's easy to feel the urge to help out with tasks outside your scope. Stick to duties you've been certified to perform. Don't take on tasks you haven't been trained for – it's essential to work within your qualifications to prevent accidents.

4. See Something, Say Something

If you spot a hazard or notice something that doesn't align with Standard Operating Procedures (SOPs), speak up immediately. Reporting potential dangers keeps everyone safe and ensures proper practices are followed.

5. Safety Is Everyone's Responsibility

While leadership plays a key role in safety, it's up to each of us to maintain a safety culture. Take pride in being safety-conscious and spread the message of safety to your colleagues. Let's all make safety a top priority this holiday season!

Stay safe, stay aware, and let's work together to keep the holidays happy and accident-free!
