

How to Use Naloxone

1. Remove nasal spray from box.
2. Open the packaging.
3. Hold the nasal spray with your thumb on the bottom of the plunger and your first and middle fingers on either side of the nozzle.
4. Insert the tip of the nozzle in either nostril.
5. Press the plunger firmly to give the dose.
6. If no reaction in 2-3 minutes or person stops breathing again, give second dose in **OTHER** nostril using a new device.

Stay with the person. Naloxone loses its effect in 30—60 minutes and the symptoms may return.

The combination of you and naloxone can help save lives in our community.

ALWAYS Call 9-1-1 after administering naloxone
