

World Environment Week

5-9 June 2023

Are you one of our "green" stars?!*

Tell us what you've done in the last year to look after the environment. No matter how big or small, if you've done something to reduce your impact on the environment, we want to hear about it!

Take your best "green" selfie!*

Show us how "green" you are with your most green selfie, a "greenie"! The photo can be on your own or with colleagues, and should show:

- The colour green, if possible
- A link to an environmental initiative in the workplace eg. charging electric vehicles, recycling paper/plastic
- Creativity and imagination!

Climate emergency?

We all have a role to play in reducing our carbon footprint. Adopt eco driving. Scan the QR code to see how you can make a difference.

*Send your entries to communication@wfs.aero

The best initiatives and photos will be featured on our LinkedIn page.
