

NICARAGUA

LANGUAGE: SPANISH

THE WORK

Nicaragua is geographically the largest country in Central America, with approximately 6.4 million inhabitants. The church has 60,000 constituents, 220 ministers, and 255 churches. The work is nationalized, meaning the ministerial body elects its governing officials. There is 1 resident missionary couple at this time, but due to the size of the country and work, there is a need for more missionaries.

BIBLE SCHOOL

Nicaragua has 6 Bible School locations, with the main facility being a beautiful campus with great potential for training future ministers. There were 114 graduates in 2022. There is a need for help in Bible School training as the number of campuses expands to better reach the country.

MINISTRY OPPORTUNITIES

There are many opportunities to help open new works, develop the ministries already in place, and strengthen the leadership by working side by side with them. With all of the ongoing projects, there is an opportunity to assist in facilitating ministry groups coming into Nicaragua. Their exposure to the needs and participation in these projects can assist in moving the work forward. These groups need someone on the ground who can travel with them and help them navigate the country.
