

SIMMER POT

Step by Step

1. Get a simmer glass pot or a regular noodle pot
2. Fill with water and put on burner
3. Allow water to come to a boil and then add simmer pot mix
4. Stir mix into water and then drop the burner heat down to 4
5. Allow the mix to sit in the water and simmer for as long as desired

Optional: You can refill the water and allow the mix to simmer longer if wanted.
