

THINK. MODEL. LEARN.™ MATH CENTERS: MEASUREMENT ACTIVITY GUIDE

PRODUCT INCLUDES:

Activity Guide

Storage Box

Instruction Tent

Activity Mats

Measurement
Manipulatives

Cubes

PURPOSE:

Empower children to independently practice non-standard measurement! This center is standards aligned for grades K-1 and geared for skill differentiation – it is double-sided for practice on two skill levels: measuring and comparing two objects and three objects. Students also build comparison skills and fine motor coordination as they manipulate counting cubes. This hands-on, engaging center is sure to make skill-building fun as students think, model, and learn!

SET UP:

Each activity mat will accommodate one student. Six activity mats are provided for up to six students total.

1. Choose the skill level the student will be working on and flip the mat to the appropriate side.
2. Provide each student with six different included objects to measure, and 25 counting cubes.

We recommend explaining instructions to students before independent play. Place the tent where students can see it for instruction reminders and visuals during use.

HOW TO USE:

- Step 1:** Choose objects to compare and place them in the correct columns.
- Step 2:** Measure each object with cubes.
- Step 3:** Switch out objects and continue measuring and comparing.

FEATURES:

REUSABLE AND DURABLE

Reusable dry erase materials offer repeated practice.

SKILL DIFFERENTIATION

Double-sided for practice on two skill levels!

TAKE IT FURTHER

Take it further with additional free resources, reproducibles, and downloadable content.

DISPLAY AND STORAGE

Store materials vertically for a space saver. Book-shaped box fits shelves taller than 12".
