2020	Freelance Game Designer LITTLE GIANTS · São Paulo	

</> ABOUT ME

Graduated at Faculdade Impacta de Tecnologia as a Technical Bachelor in Digital Games, and in the technical course of Informatics T.I at SENAC institution.

Experience in participating in several projects at SENAC in which I stood out mainly working in the database area, where I have great affinity. I developed the entities of a pharmacy detailing all attributes. I was successful and recognized by the teachers for my personal commitment and dedication, as well for being a great teamworker with all the members of the group.

I'm focusing on Level and Game Design studies and participating in several Game Jams, following events related to the area. I've been building maps using Level Editors from some games. Currently I work on a team of 3 people called Lightkeeper's Machine. We develop games in a freelance manner to individual clients, in which my role is Game Designer.

RECOMMENDATIONS

Jan. 2022	"Leonardo was exceptional in all departments. Prompt and clear communication and delivered exactly what he promised. I am more than satisfied with what he was able to deliver in such a short time. Will surely work with him again on more projects. Highly recommended!!", diki24, India, Jan. 2022. From Fiverr
Mar. 2021	"A sharp mind. One of my most creative students. One of my most committed students.", Fabiano Onça, Brazil, Mar. 2021.
Sept. 2021	"Thank you so much! Seller is super fast and can really run with making a great GDD with just brainstormed ideas. Wow!", Sophia Boettcher, United States, Sept. 2021. From Fiverr
Sept. 2021	"The LightKeeper's Machine team did an excellent job! They really went above and beyond in helping us shape our video game idea. I appreciate the Zoom call they offered during the development of the document in addition to the fast delivery time as well. Highly recommended!", Devoni, Bahrain, Sept. 2021. From Fiverr
Oct. 2021	"Did amazing work and was very detailed in the final product.", Devoni, United States, Oct. 2021. From Fiverr
