

Dear Guest

It is my pleasure to have you in my restaurant to enjoy our
aphrodisiac food from Puglia.

The concept comes from the passion of the food matched to our
hometown Puglia, where there are already historically many aphrodisiac
ingredients, here comes the name "Gola" in Italian is the equivalent of
gluttony (one of 7 deadly sins)

aka the over-indulgence of food and drink.

And did not have to invent anything new without detaching ourselves from
our culinary tradition, we only amplified placed together some ingredients in
our traditional recipes for most of the menu, only in some dishes we
approached aphrodisiac ingredients that do not belong to our traditional
cuisine. On the last page you will find the list of aphrodisiac ingredients.

Please enjoy your experience at Gola.
