

Averi Martin

A fierce competitor who's omnipresent on the court and skilled at hitting the open spots on the opposing team's floor, Averi Martin does whatever it takes to help her teams succeed. From extending plays with timely digs and sets, to blocking over the net, to killing the WVSSAC State Championship winning match point, Averi makes an impact every chance she gets.

Averi is already a key contributor for the Oak Glen Golden Bears playing the majority of sets and making an impact on nearly every possession. She's taking her talents to Sky Elite Volleyball's U17 Open-Black team to achieve her highest potential. Averi's 4.0 GPA is a testament to her strong work ethic which will go a long way in helping her achieve her dream of becoming a marine biologist.

AVERI QUOTES

Even though I'm only a sophomore, I work hard on and off the court so that I can step up when my team needs me. My natural position is in the middle, but I love to play every position. I work hard in all aspects of the game to become a better, more well-rounded player. At the next level, I'm most excited to continue pursuing my two favorite interests — playing volleyball and studying marine biology.
