

PANAMA

LANGUAGE: SPANISH

THE WORK

Panama has an estimated population of 4.3 million. It is a banking nation and has a large number of skyscrapers in the capital city. It is a nationalized work, meaning the ministerial body elects its officials. They have not had a resident missionary for several years and are asking for help. Panama is known throughout the world for the Panama Canal. We pray it will also be known for revival. The UPC of Panama has 11,607 constituents with 116 ministers and 78 churches and continues to experience growth.

BIBLE SCHOOL

The Bible School is reaching all over Panama. As of 2023, there are 4 Bible Schools, 39 students, and 35 graduates. There is a great need for teacher training so the Bible School can continue to grow and be effective in the effort to reach the people of this nation.

MINISTRY OPPORTUNITIES

The opportunities are limitless as the work needs help in all areas. In teaching, training, preaching, and especially in starting new works. Panama is ready for someone who will work alongside the nationals to see a powerful revival sweep their country.
