

# MIRA MESA SENIOR ASSASSINS 20-21

## PLEASE CAREFULLY READ THE ENTIRE DOCUMENT!

Our rules come from C/O 2020's game, but are NOT ENTIRELY THE SAME!

### **REGISTRATION REQUIREMENTS:**

In order to qualify to play you must have the following:

- A team of **2** seniors
  - Students that have previously gone to MMHS and transferred to **CHARTER** may still play if they are still residing in Mira Mesa.
  - Due to our current conditions, we encourage those that do not live directly in Mira Mesa or those who have stopped coming here because school is out of session to refrain from playing.
- Appropriate team name
- **\$25 buy-in fee** (\$10 per teammate and \$2.50 per floaty)

---

NO CASH → **VENMO: SENIOR-ELIMINATION** (this way all of the pot will be concentrated in one account and the floaty fee portion will be used to bulk order floaties)

If you do not have a Venmo, you may give your teammate or another player cash then have them Venmo for you.

---

### **HOW TO PLAY:**

The account will DM randomly assigned targets for you and your teammate. You may **NOT** switch targets with anyone, add, or take off targets from your designated target.

The game will have waves that are typically **4 weeks long**. Each wave, you and your partner will receive a new target assignment.

- If you DO NOT assassinate your target by the end of the wave you will be eliminated.

If you are assassinated, your partner has **48 hours**, from when the video of your elimination is posted on Instagram, to get one member of your team's targets out. Then you may get back in.

- **If you fail to do so, both you and your partner are out after 48 hours.**

If you eliminate your targets during the duration of the wave, you are done for assassinating for that period. You may inherit the targets of the team you assassinated.

- You don't have to pursue the targets because you are safe for that wave, but if you want to eliminate competition, you may do so by going after your new targets.
  - Watch out though, the team who has your team as their target can still get you!

New targets will still be reassigned by the end of each wave.

The winners get a cash prize. **More people playing=more money!**

---

## ***WEAPONS:***

You can get people out with water guns, water bottles, water balloons, liquid blasters etc.

- **Please be wary in public settings if you have a water gun.** Must be liquid water (basically, ice cubes don't count)

Your target must come in contact with water when **NOT** wearing their floaty in order to be eliminated

**ABSOLUTELY NO WATER GUNS ON CAMPUS**, this will result in the elimination and cancellation of the **ENTIRE** game for everyone. (This is a given even though we are not in school at the moment)

---

## ***PROTECTION:***

Both team players must have floaties that have been **SIGNED AND DISTRIBUTED** by hosts to be used as valid protection from elimination.

- **Floaties must be blown up to the point where it is visible that there is air!**
- **Floaty must be on body and visible, NOT held by hand**
- **NO replacement floaties (unless damaged)**

**NO WEARING FLOATIES ON CAMPUS** (if you catch another player with their floaty on and/or visible on campus, you must take a **PICTURE** and **DM** it to @21elimination). This will result in that player being put on the bounty list (see below for more details on the bounty list)

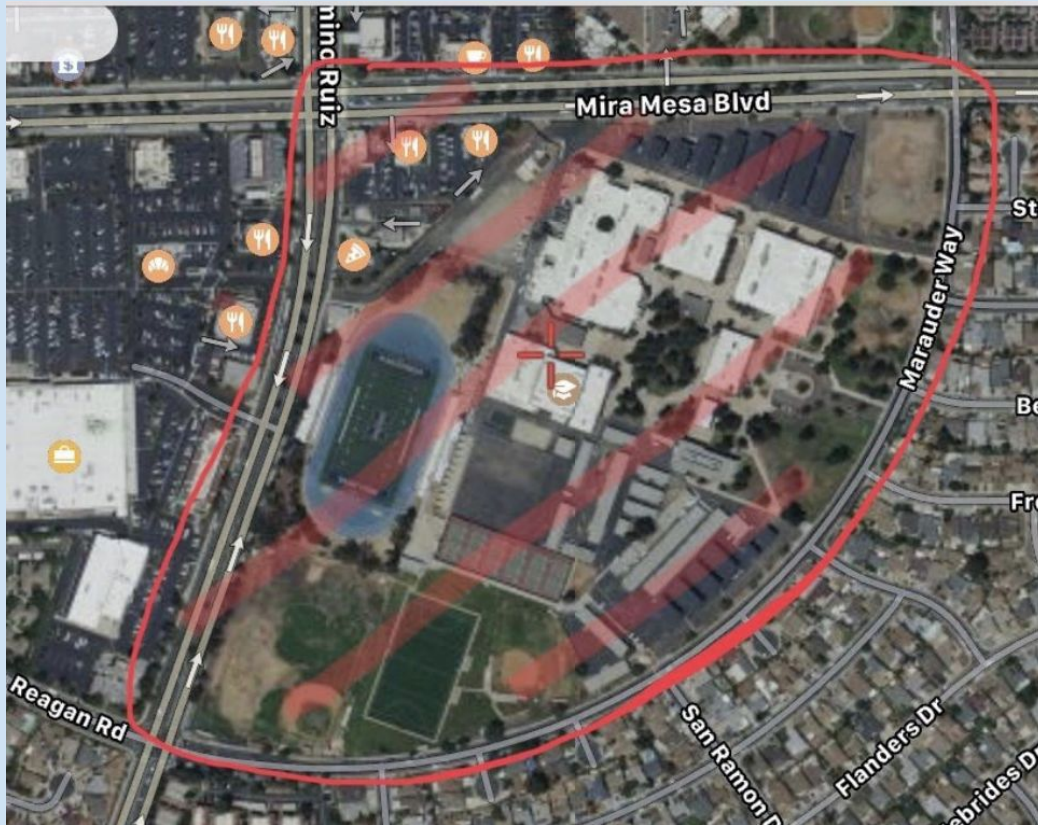

→ **This is applicable if the school ever returns back in session**

## **SAFE ZONES/OFF LIMITS:**

Senior Assassin is not affiliated with any school. Therefore **ANY** elementary, middle, and high school campus' are off-limits at all times.

→ OTHER HIGH SCHOOL CAMPUSES ARE SAFE ZONES, but the parking lot is not.

Our entire school is safe, including parking lots, all the way to the sidewalk across the street from campus.

Athletes will be safe during the duration of their practice, even if it is off-campus! (i.e. assassinating someone in XC while they are running off-campus for practice will be deemed *invalid*)

- ALL practices are counted as safe, at the moment, as long as there is proof of your practice taking place at that time

Workplaces, school associated sports games or competitions (AWAY), and volunteer locations are all off-limits.

- However, the parking lots of those locations are fair game (bus rides to/from school-sponsored events are safe). Other school-sponsored events include banquets, meetings, and award ceremonies.

→ Once you leave your workplace/game/etc, you are **NOT SAFE**  
Places of Worship ARE SAFE ZONES - INCLUDING its parking lots, because with what has been going on recently, you shouldn't be outside a church with a water gun or stalking in a car because that is bad news for everyone  
→ So just stay away from assassinating anyone at any churches/temples/synagogues/mosques, etc. for everyone's safety - thank you.

**WARNING:** If you break one of these rules, then you will get **eliminated permanently** from the game. If you're unsure about a location- BEFORE you go, DM the account, and hosts will make a decision about that area.

**\*This will be clarified by the hosts depending on the situation\***

---

## ***BOUNTY LIST:***

You are put on the Bounty List if you have/wear your floaty to school boundaries (includes parking lot), anyone in the game can take a picture of you, and DM it to the account (this will all stay anonymous so **snitch away ;)** ).

→ If you are the one taking the photo, make sure it is clear that the photo was taken in school boundaries. The account will post the photo and this means that you are on the bounty list.

**You are put on Bounty List if it is reported that you are not wearing a mask when approaching a target and your kill **WILL NOT COUNT.****

If you ask a question that is directly answered on this document you will be put on the list

If your targets record a video of you failing to assassinate them (missing the shot) you're on the bounty list.

If we receive a video of you shooting someone with their floaty on, you'll be on the list  
→ Incriminating another player to have their floaty/ water gun out by opening their backpack, duffle, etc will result in you being on the list.

Caught on video/screenshot alliances (players in-game) will result in both you and however many allies being put on the list. That means assisting / already assisted/planning to assist another team in a kill or recording. (Ganging up on people)

If a kill is acquired but then the alliance is caught, the kill will be negated and the victim stays alive.

If you die while being on bounty, your whole team is ELIMINATED

If you are placed on the bounty list, **ANY** team that is still in the game can get **YOU**, and that will count as their kill for the wave. This does not include your partner, but if you are still on the Bounty List by the end of the wave, you and your partner are out of the game.

If you're on the bounty list, you can still kill your target and have it count as your team's kill for the wave, BUT you must get off the list to actually survive the wave.

## **FLOATIES DO PROTECT YOU WHILE, ON BOUNTY!**

**\*For clarification, floaties only do not protect you on purge days.**

To get off the Bounty List you must assassinate one of the hosts when they are **NOT** wearing their floaties, get it on video like you would a regular assassination. Getting any of us out does not count as a kill, it's just a way to get off the list so you still have to assassinate your target by the end of the wave.

---

## **PURGE DAYS:**

It will be announced the night before and will last **24 hours**.

Floaties **do not protect you**, but **Safe Zones are still in effect!**

- Please turn on post notifications for Instagram if you want to be kept in the loop.

It's free for all, your team can kill any team!

- Killing of any team, even if it's not your assigned target, **counts as your kill for the wave.**

---

## **ELIMINATION RULES:**

There must be a clear video of your target getting assassinated when not wearing their floaty (unless it's a purge day) by getting sprayed with water.

- Please make the video high quality and make sure that you can clearly see the water on the target
  - Use flash if it's dark! It must be DMed to the @21elimination account immediately after elimination to be posted.

If you steal someone else's floaty, you will be eliminated

**No assassinations in moving vehicles** (while someone is driving, running up to a moving car, drivebys, etc.) *Breaking this rule results in elimination.*

Physical harm to another team will cause removal from the game (no **VIOLENCE**) -  
**REMEMBER THE LAW STILL APPLIES**

→ no breaking and entering into people's houses, do not trespass onto private property. Anyone found breaking the law will be **instantly eliminated**.

---

## ***SNAP MAP RULES:***

Please keep your snap maps on at appropriate times (*11:00AM AT THE LATEST TILL 11:00PM*). If another player reports (anonymously) that your map is off you will be placed on bounty.

- If you are falsely accusing someone of having their maps off you will be put on bounty, so make sure you're sure!

Maps are to be left on while you are at home!

**Once a player is reported a host will check to see if their location is really off.**

---

## ***OTHER RULES/CLARIFICATIONS:***

If you kill your target, but they kill their targets and get back in, you aren't safe because your kill was neglected so you have to try again.

**Rules are subject to change, FAQs and etc. will be included later on.**

**WEAR A MASK!!!**
