SCOTTISH SONGWRITER'S TOURNAMENT ANTHEM RACKS-UP MORE THAN 100,000 LISTENS MORE THAN SIX MONTHS BEFORE EURO 2020 KICKS-OFF

Prestwick born singer-songwriter Nick Morgan unveils his first single **'Our Moment'**.

Nick has created an indie pop anthem with a nostalgic undertone which will resonate with Scottish patriots and football fans alike. The track is entwined with moments of Scotland's historical past and heritage. However, it also exposes its innocence by making lighthearted fun of the many Scottish stereotypes whilst reflecting on the names of Scottish football's unsung heroes to create an unforgettable and catchy middle eight.

The track was written and the accompanying video was produced in correspondence with Scotland's European 2021 campaign. The aim of the track is to inspire the nation to support and get behind their national team whilst offering a feeling of hope, excitement and nostalgia.

Currently the video has been viewed over 120,000 times on social media platforms and is now available on all major streaming services. **'Our Moment'** has gained significant media attention with interest from radio stations and newspapers.
