

Engineer Your Career

CTA engineers build for the future.

Whether it's contributing to our capital projects, such as the Red Purple Modernization (RPM) or Red Line Extension (RLE) initiatives, managing the overhaul of various rail car series within our fleet, or connecting our system locations through our telecommunications networks, CTA engineers are shaping Chicago's future. If you are looking for a stable career with opportunities for growth that impact the Chicago of today and tomorrow, then this might just be the place for you!

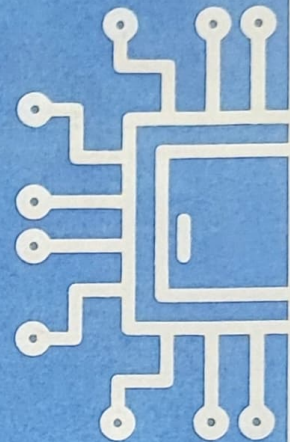

Cody K.
Engineer III - Civil

Courtney W.
Construction Project
Manager I
