THE WORK

Honduras is a country that is ready for explosive revival. It is one of the larger countries geographically and has an estimated population of 9.5 million. The UPC of Honduras is a nationalized work, meaning the ministerial body elects its officials. They have been without a resident missionary for several years. They are asking for help and see the importance of having missionaries. Honduras has great national leaders who have a vision for the country and are moving toward a tremendous revival. There are 5,800 constituents, 98 ministers, and 116 churches.

BIBLE SCHOOL

There are 8 Bible Schools functioning throughout the country, with 208 students and 16 graduates in 2022.

MINISTRY OPPORTUNITIES

The opportunities are limitless as they need help in all ministry efforts, including Bible School, evangelism, training, and construction of new buildings. These, and many other areas, are why there is such a great need for laborers in Honduras.
