THE SLAYGROUND SEW-IN HAIR EXTENSIONS INFO

-Welcome to The Slayground! Before booking your Sew In hair extension service, understanding the process, aftercare, and expectations is important. This agreement outlines the service details, preparation tips, and aftercare information.

+Consultation is Key:

-A hair extension consultation with The Slayground's stylist, Ari, is required before booking your Sew In service. This consultation allows you to discuss your hair goals, desired length and volume, extension type, and maintenance routine. During the consultation, Ari will also provide a personalized quote for the installation based on the chosen hair type, brand, and quality.

+Hair Options:

• **The Slayground Hair:**

- To ensure the highest quality and longevity of your extensions, The Slayground recommends using hair they order on your behalf. You have a variety of options based on desired length, brand, and quality. The Slayground will strive to provide quotes within your budget.
- Hair ordered by The Slayground will have a separate ordering price due at the time of consultation. The remaining cost of the hair will be due at your installation appointment.
- Please note: Ordered hair is non-refundable but can be kept by the client upon full payment of the remaining hair cost, even if the installation service is cancelled.

• **Bringing Your Own Hair:**

- While you may choose to bring your own hair extensions, The Slayground cannot guarantee their quality or longevity.
- A non-refundable deposit of \$50 will be required for using your own hair extensions.

• **Deposits:**

- A deposit may be required depending on the chosen hair option.
 - For hair ordered by The Slayground with a total cost exceeding \$500, no deposit is required.
 - For hair ordered by The Slayground with a total cost under \$500, a non-refundable deposit of \$25 may be required.
- All deposits are applied towards the final installation service cost on the day of your appointment.

Total due at booking: \$700

Deposit: \$25

(no refunds. Deposit goes towards Installation price at day of service)

For hair order: \$525

(no refunds)

Due at Install

THE SLAYGROUND SEW-IN HAIR EXTENSIONS INFO

+Important Information:

- **Age Requirement:** Sew In hair extension services are not available for clients under 16 years of age. Minors aged 16-17 must have a parent or guardian present during the consultation and provide written permission for the service.
- **Preparation:** Arrive for your appointment with clean, dry, detangled hair free of products like oils, styling creams, or leave-in conditioners.

+The Slayground's Commitment:

-The Slayground is committed to providing a professional and personalized Sew In hair extension experience. Ari, their stylist, is highly trained in extension application techniques and uses high-quality products to ensure a seamless and comfortable experience.

+The Slayground is not liable for:

- Unrealistic expectations regarding the extensions' ability to completely alter your hair texture or curl pattern.
- Difficulty achieving the exact desired look due to factors beyond control, such as your natural hair health, hair type, or previous hair damage.

+Maintenance Appointments:

-Schedule "move-up" appointments every 4-6 weeks following installation at The Slayground to tighten the extensions and prevent tension on the scalp.

- **Hair Integrity:** After three consecutive move-ups, a removal and reinstall is recommended to maintain hair health and prevent tension on the scalp.
- **Missed Appointments:** Missing the recommended move-up window requires a complete removal and reinstall.
- **Same-Day Removal & Reinstall:** Same-day removal and reinstall cost \$20 (discounted from \$75).
- **Move-Up Fees:** A flat fee of \$150 covers a full-head, 2-hour move-up appointment at The Slayground. Schedule ample time for your appointment.

+Warranty:

- Contact The Slayground within 7 days of installation to address any installation-related issues free of charge. After 7 days, a maintenance fee may apply depending on the situation.

THE SLAYGROUND SEW-IN HAIR EXTENSIONS AFTER CARE

Congratulations on your fresh set of Sew- In Hair Extensions!

In this packet you will find all of the at-home care and maintenance Instructions you will need in order to properly care for your extensions. Please take all at-home care instructions seriously for the best results!

Do not exceed recommended time frame for your move-up appointments. If recommended time frame is exceeded and at home care Instructions are not followed, The Slayground cannot guarantee the quality of your extensions and your natural hair.

What to expect after a new Install:

After a new Install your head and scalp may experience some tenderness. This is caused by how tight the extensions are on your scalp. Sleeping and pulling your hair up in a high ponytail will more than likely be uncomfortable for a while. This is normal and will go away within a day or two.

THE SLAYGROUND SEW-IN HAIR EXTENSIONS AFTER CARE

Instructions:

- **Brushing:**
 - Thoroughly brush hair at least twice per day; starting at the ends, working upwards.
 - Avoid pulling and aggressive brushing (hold wefts when brushing).
 - Avoid brushing directly over the wefts.
 - Hair extension brushes can be found at beauty supply stores like Sally's, or even on Amazon. I recommend picking one up. (These are different from "wet" brushes.)
- **Washing:**
 - Use professional shampoos and conditioners (See recommended product list)
 - Avoid washing hair every day. Supplement with a dry shampoo.
 - It is recommended to use a clarifying shampoo to remove build up and deep conditioner to maintain extension quality every 1-2 weeks.
- **Styling:**
 - Always use a heat protectant.
 - It is suggested to blow dry to smooth hair and dry thread; never go to bed with your hair wet.
 - Using a scrunchie and silk pillowcase while sleeping will help reduce frizz and maintain the style. (It's recommended to lightly braid the hair and putting it in a silk bonnet for sleep even if you use a silk pillowcase.)
- **Swimming:**
 - It is not recommended to swim in chlorine with your extensions. The risk includes discoloring, matting, and dryness.
 - If swimming The Slayground cannot guarantee the quality of the extensions; but at the least, use a deep conditioner and put hair up in a tight bun and try to keep the hair out of the water if you are in the pool at all.

**Some sunscreens will discolor your hair extensions (especially blondes).
Avoid sunscreen with the ingredient AVOBENZONE.
Mineral sunscreen is suggested.**
