

# A GUIDE TO MIRROR ADJUSTMENT

## FENDER MIRROR

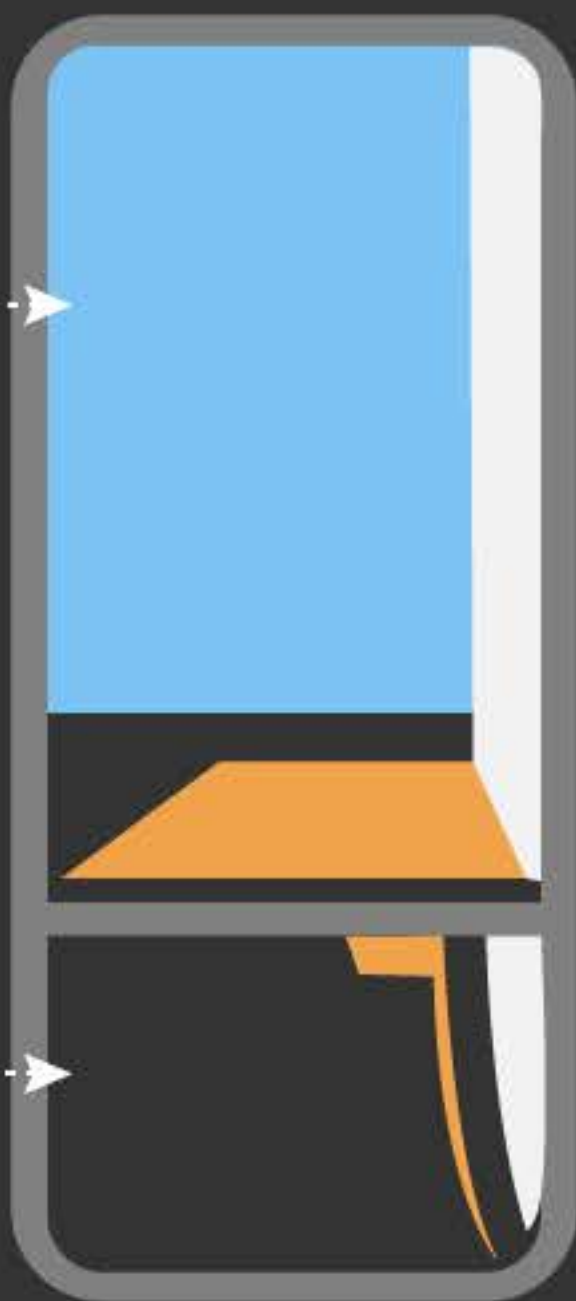

Adjust your fender mirror so that you see some of the truck on the left portion of the mirror and the painted target box on the top of the mirror

## TO START

Pull into the mirror adjustment station with your wheels as close to the line as possible and stop when your mirror lines up with this line

## LEFT MIRROR

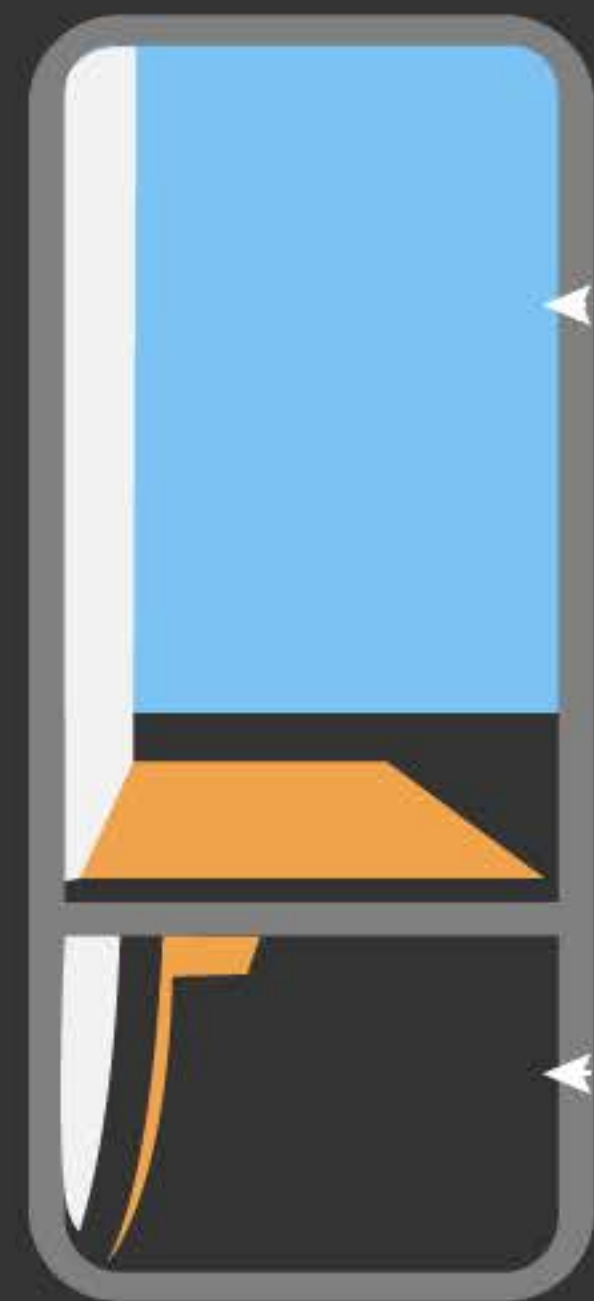

Adjust your left flat mirror so that you see some of the trailer on the right portion of the mirror and the painted target box on the bottom

Adjust your left convex mirror so that you see the painted target box on top of the mirror

## RIGHT MIRROR

Adjust your right flat mirror so that you see some of the trailer on the left portion of the mirror and the painted target box on the bottom

Adjust your right convex mirror so that you see the painted target box on top of the mirror
