White Paper v0.1

Farming Intelligent (FI 2030) initiated by HijauJaya Manufacturing Sdn Bhd consisting of digitalizing agriculture land & farming facility leasing programs using blockchain technology under TRON (CLX) Stable TRC-20 Token & CLOUDX CFD Assets Backed ERC-20 Token (Contract For Difference) under at AUXSTO Exchange at Australia could make the profession more attractive to young investors in our initial land with 3,772 acres of Agroland in Malaysia. Digital innovation can therefore have a positive impact on part of the fresh from farm production until consumers.

In this FI, we convert consumers into a part of Joint-Venture partner which turns their money to be spent into investment first and generates dividends which they can enjoy in the residual income stream to gain more spending power. FI deal with Smart Farming is an emerging concept that refers to managing farms using modern Information and Communication Technologies to increase the quantity and quality of products while optimizing the human labor required.

01

Our first farming project starts with Kelulut Honey Farming which consists of a huge potential market of immunity-boosting demand especially the happening of COVID-19 Pandemic have increased the public health awareness.

We are promoting Fresh From Farm (FFF) logistics and building up the digital halal supply chain with ChefKing Halal Central CloudxKitchen & ChefKing Homechef Academy to produce more home chefs that can generate income by Cook From Home.

Future of ChefKing Central CloudxKitchen division was aiming at the huge market of exporting halal foods or as a hub to complying halal products for 197 countries which is a trillion-dollar potential market place.

Last but not least, Fresh From Farm & ChefKing Halal products will promote using UI Dropship Marketplace to enhance the market popularity. In order to create stickiness between our FI program with consumers, we have created “KELULUT HALAL DELIVERY” to serve our customers from time to time and at the same time offer them rewards of “SPEND MONEY, FREE HONEY!” Loyalty Programme and they may get 0.1ml Kelulut Honey once they spend every MYR1!

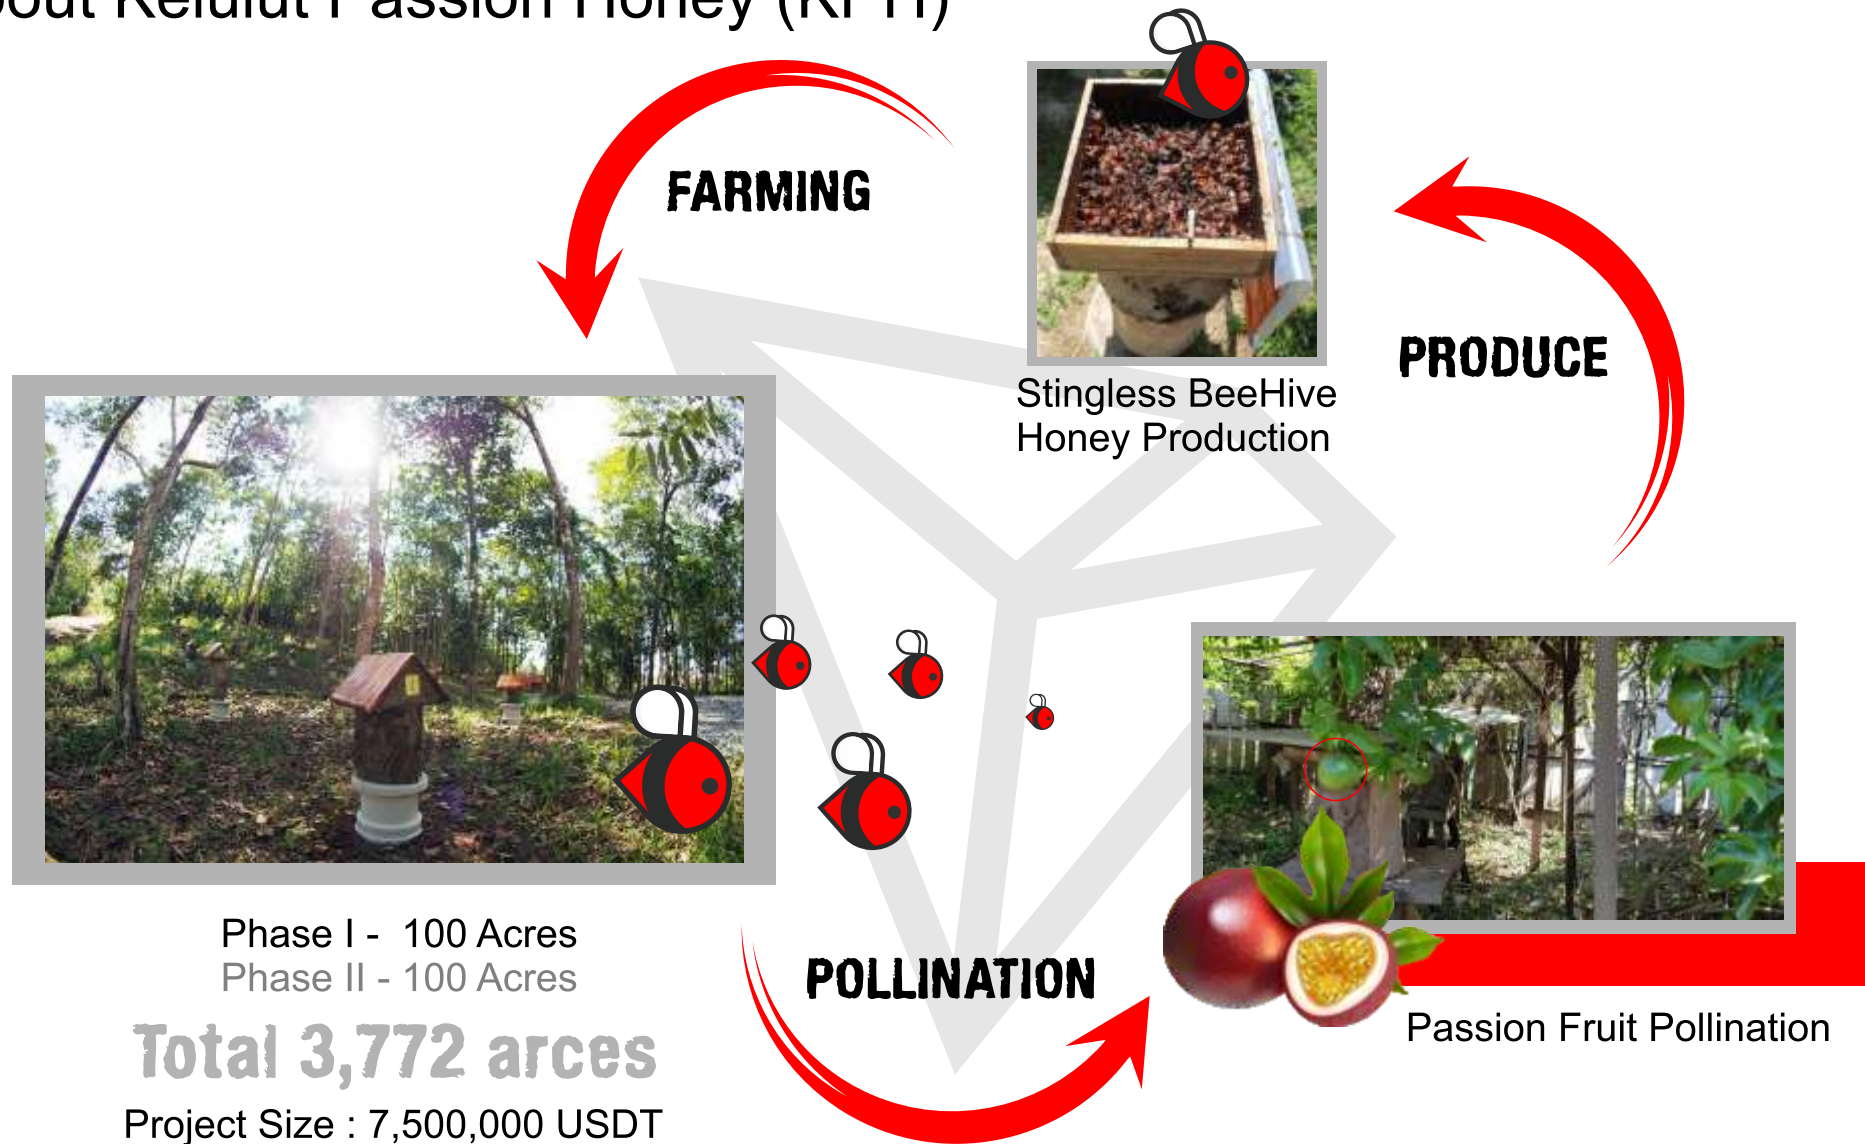

The whole entire program has converted a consumer into a prosumer or provestor which both 3 parties benefit from FI program:

1. The consumer becomes JV-Partner and gets a continuous income stream from farming
2. Farmer or Grower getting unlimited fund from Consumer
3. Protect the earth by generating Clean Food or Organic Food by Farmer (Fresh From Farm Concepts)

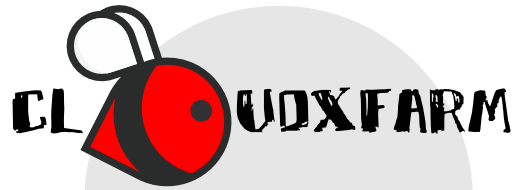

Protect The Earth and Do My Best!
From the Delivery.ChefKing.Farm Team!

About Kelulut Passion Honey (KPH)

02

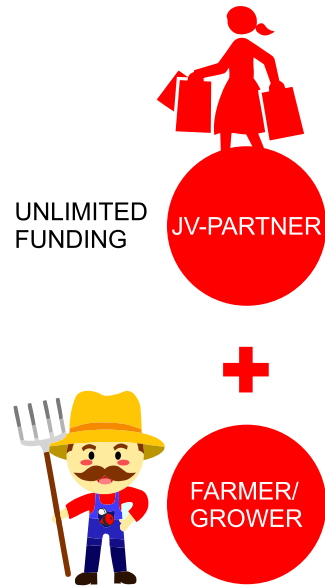

Pollination of passionfruit by kelulut (stingless bees) is our choice to produce high-quality “Kelulut Passion Honey” in our joint-venture farm. Kelulut Passion Honey (KPH) produced by stingless honey bees has **stronger antioxidant properties** compared to other honey types and maybe a functional food against MetS Cardiovascular Diseases (CVD) and Diabetes Mellitus

Anti-Inflammatory**

**Increasing Athletic
Performance**

**Reducing Ulcers &
Gastrointestinal Disorders**

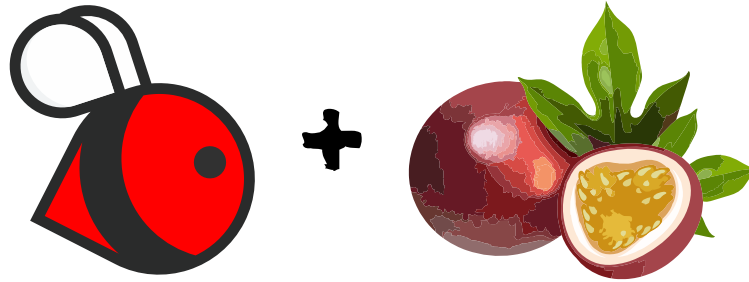

**Increasing the
Memory Activity**

Key Benefits of Kelulut Passion Fruit Honey Drink

ANTI AGING

05

Rich in Antioxidants

ANTI AGING

Improve Insulin Sensitivity

Provides Key Nutrients

Boosts Immune System

Good Source of Fiber

Support Heart Health

Low Glycemic Index
Not Increasing Blood Sugar

Reduce Anxiety
Decreased Stress

The Covid-19 pandemic has pushed up stock prices and the medical stocks and related industries have increased. Investors who managed to buy relevant shares early will even count their money with a smile in a dream! Anyway, because of this epidemic, people are generally aware of the importance of boosting immunity, which means that [a good product that can boost the body's immunity] will be another [way of making money]!

The economy is not good. most investors want to make a profit, but most investments are risky. If you want to do business, you need an exclusive business. Most traders do not know what to trade. Now there is an opportunity right in front of you, let you ride our platform, and realize your # boss dream!

The #CLOUDXFARM (Crop Shared Lease - Kelulut Honey Farming Joint-Venture) project promoted by HijauJaya is the best answer! CLOUDXFARM plans to defend kelulut, whose economic and #medical value is better than honey bees. Currently, Hijaujaya will work for hand in hand with 3772 acres of land in Kelantan that can expand kelulut farms and produce # High-Quality Kelulut Honey Value, # can increase immunity and prevent the COVID-19 epidemic.

Due to the seriousness of the COVID-19 outbreak, HijauJaya decided to expand the kelulut farm, and we would like to invite you to be the boss! Through a 5 -year cooperative partnership plan with landowners, operators, and investors, [get a potential return of # 300% or higher]!

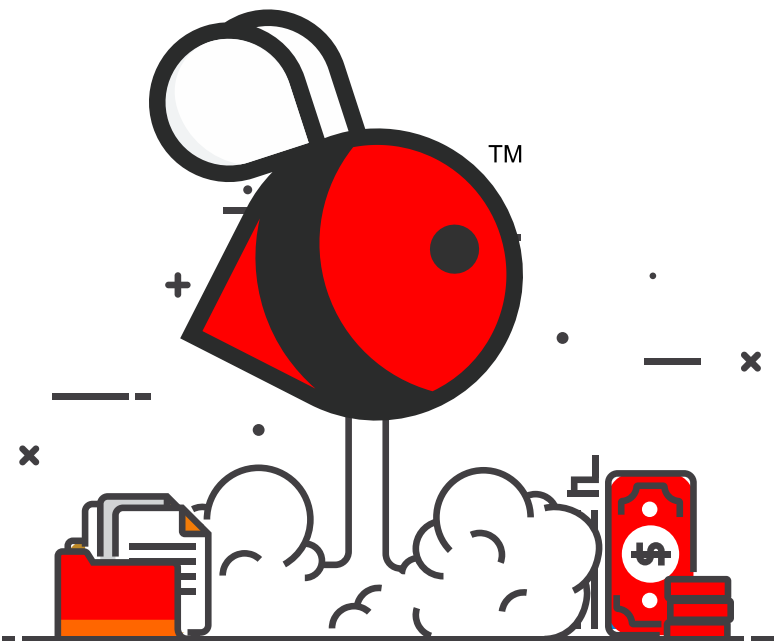

The CLOUDXFARM Intelligent FI project – Business Opportunity

In the future, Hijaujaya will develop other promising projects, including upgrading the farm into a
☐ Recreational Farm Resort.

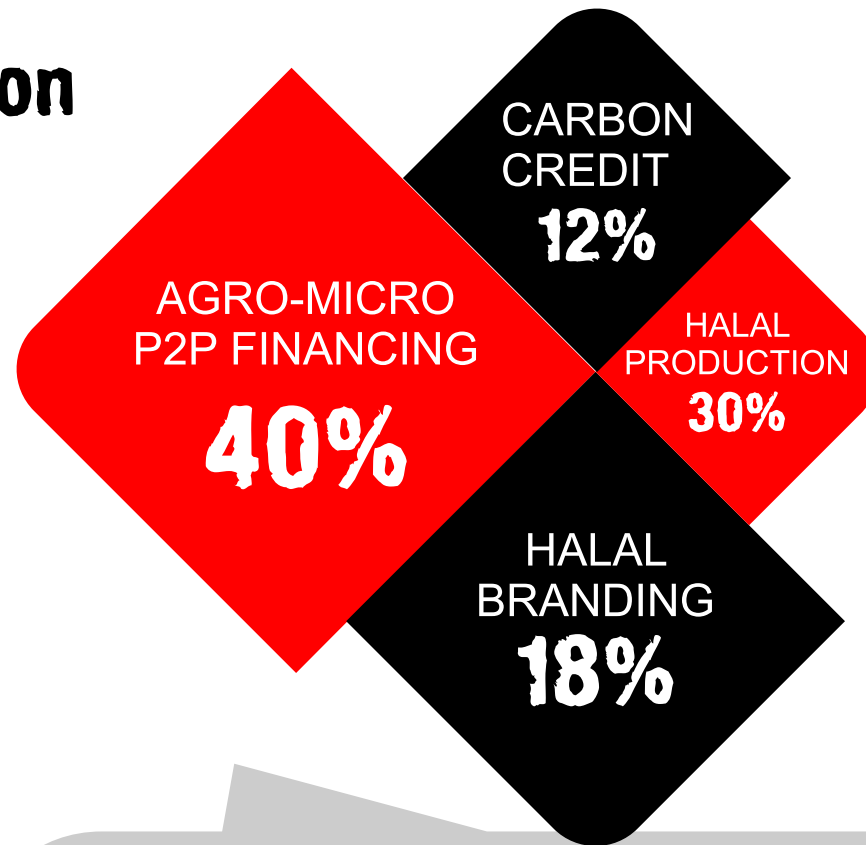

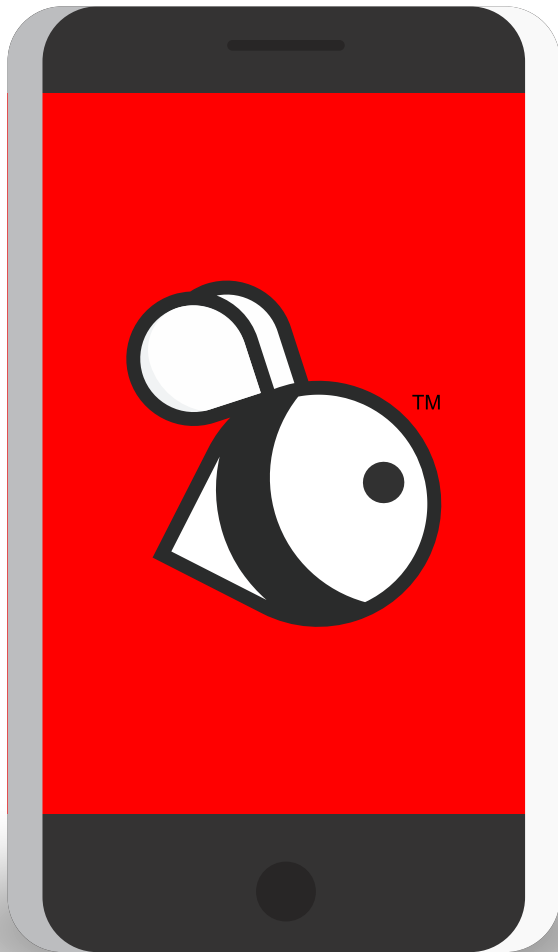

CLOUDXFARM's future plans after Kelulut Honey Farming:

- ☐ NangChem (MultiCrop)
- ☐ Honey Pineapple/ Golden Melon Fruit (Fruit Planting)
- ☐ Tongkat Ali (Herb Cultivation)
- ☐ Gaharu Plantation (One person, One tree)
- ☐ Sustainable Agriculture (Vegetables and Livestock)
- ☐ Freshwater Fish Pond (Protein supply)

So, what are you waiting for? Not only can be the boss but also be able to defend and grow healthy products that are in line with the natural ecological environment. The most important thing is that Kelulut Honey can #Improve the human immune system, # Prevent COVID-19! Have unlimited market prospects! Your new way out is here! Contact us now!
