Roadmap to be publicly traded 4th quarter of 2021.

Currently providing AI trading systems for top financial institutions.

Proven track record of high-performance results.

Founded by Dr. Anna Becker, operated by top AI Scientists.

- Her deep-learning algorithms manage over 1 Billion dollars of investment (AuM) and have been deployed in managing institutional monies for more than a decade.
- Her teams of AI scientists have more than 20 proprietary AI systems in operation and serve as the AI investing backbone of trading at more than 150 investment firms across the United States, Europe and Asia.
- At the age of 20 Anna found an approximation algorithm by a factor of two, which now has wide applications in operating systems, database systems, and VLSI chip design.
- Worked with CME/CBOT, FCM's and other participants of Futures and Commodities eco-system, to promote algorithmic trading platform to retail and institutional clients.
- Following her PhD in Artificial Intelligence at the elite Technion University, Dr. Becker has founded and sold several AI companies in the FinTech space and is now the founder and CEO of Endotech.
- Her publications have been distributed in the leading AI financial circles across Europe and America, and her Machine Learning systems have been integrated into the some of the world's largest and most successful banks and funds worldwide including Dragon Holdings to MFGlobal.

Financial Commission Appoints Dr. Anna Becker to its Dispute Resolution Committee (DRC)

The Financial Commission / Uncategorized / Financial Commission Appoints Dr. Anna Becker to its Dispute Resolution Committee (DRC)

February 20, 2017 – Hong Kong & New York: Financial Commission, a leading External Dispute Resolution (EDR) organization, operated by FinaCom PLC, servicing online brokerages and technology providers within the financial services industry, today announces the appointment of Dr. Anna Becker to its Dispute Resolution Committee (DRC).

With more than 20 years of senior leadership and innovation in retail brokerage and finance organizations, Dr. Anna Becker brings a diverse set of skills to Financial Commission's DRC.

Anna has core experiences in founding retail software solutions and building retail brokerages. She has proven expertise in bringing new technologies like big data systems, behavioural systems and automation to drive innovation in retail trading.

Dr. Becker's early entrepreneurial successes range from founding Strategy Runner (Sold) to driving growth in established organizations (MF Global, Gilboa Fund). Lately, she founded [Sherpa](#) to provide new technologies and services to retail financial institutions. As an experienced executive and change agent in retail finance, Dr. Becker has worked with more than 300 brokers and has served as the compliance officer with regulators like the NFA and CFTC.

Dr. Anna Becker holds MSc degree in computer science and PhD degree in AI from Technion (Israel). She is also an author of several books on Artificial Intelligence and has deep experience in algorithmic investment solutions.

Enhancing the DRC structure

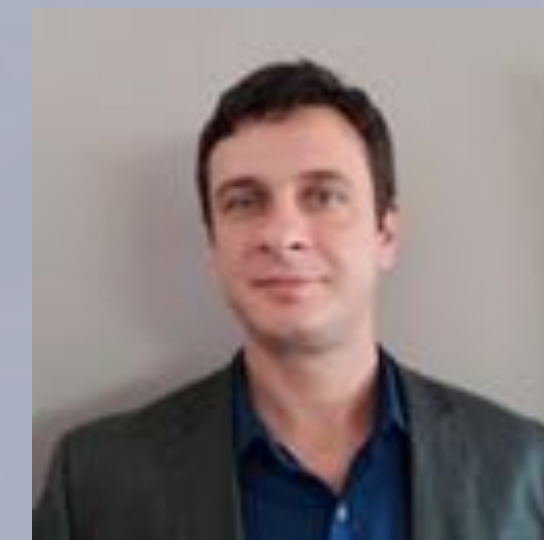

Dr. Anna Becker is the latest industry expert to join the Financial Commission's DRC – which consists of a diverse panel of industry professionals who follow a non-bias process to process and resolve complaints from member's clients.

Financial Commission Chairman, Peter Tatarnikov, said regarding the appointment, "Dr. Anna Becker brings a deep understanding of the online retail brokerage industry to Financial Commission's Dispute Resolution Committee. Her proven track-record in FX technologies and overall expertise will be a great resource to further enhance our capabilities. We are glad to welcome Anna to Financial Commission's DRC and believe that her appointment will improve, even more, our existing dispute resolution process"

Legal Disclaimer:

Past performance does not guarantee future results, and is for informational purposes only. Historical performances shown are the result of compounding profits. Profit rewards are contingent upon profitable trading performance and results are not a guarantee. All performance will be visible with full transparency to each crowd fund member.

Purchasing the Daisy Crowd Fund packages is a contribution to the crowd funding model for the Daisy ai development. The smart contract will place 50% of crowd funding packs 1-7 and 70% of packs 8-10 into Endotech's DaisyFund trade account, for the purpose of testing and expanding the Daisy AI trading performance and for improving the current AI trading systems and strategies. The 85% of trading profits given to Daisy contributors are the crowd funding rewards from the performance of Daisy AI Trading.

The referral plan will also contribute \$10M to endotech for the actual development of Daisy AI. Shares of Endotech stock will be rewarded to each Crowd Fund contributor prior to Endotech going public, and at that time will require a full kyc verification of each member's legal identity before any shares of stock can be rewarded.
