

# Dashboard

[mobileapp-help.netradyne.com/hc/en-us/articles/1500006298361-Dashboard](https://mobileapp-help.netradyne.com/hc/en-us/articles/1500006298361-Dashboard)

The Dashboard screen displays the driver's GreenZone Score, DriverStars, Total Alerts Generated, and other details that impact the GreenZone Score. You can view the following details here:

- **Time Period:** You can tap the **Daily**, **Weekly**, and **Monthly** buttons to view the corresponding information on the dashboard. Use the arrow buttons to select the required date, week, or month.
- **Assigned Vehicle:** View the vehicle that has been assigned to you to ensure that the drive time is assigned to the correct vehicle. See [Driver-Vehicle Assignment](#) for details.
- **Your GreenZone Score:** Your GreenZone Score is based on the Alerts, DriverStars, and Neutral events that are generated by you while driving. It is advisable to maintain a GreenZone Score that is equivalent to or higher than your Fleet Goal. Your GreenZone Score may reduce every time you generate an Alert. The Alerts are indicative of unsafe driving and scope for improving driving. It is advisable to drive safely to boost your GreenZone Score. For example: Following traffic rules and maintaining a safe following distance help increase the GreenZone Score. You can tap the right arrow to view the Driver Report.

- **Your Rank:** Drivers are ranked based on their GreenZone Score. This is done to encourage a healthy competition in the Fleet. The driver who scored the highest GreenZone score is ranked first. You can view your rank among all drivers in your fleet.  
Three Drivers with topmost GreenZone Score are displayed on the Dashboard screen.

**Note:**

If you are part of a selected Driver Group, your rank is in relation to other drivers in the Group. Otherwise, your rank is computed based on the performance of all drivers in the Fleet. This is a Fleet-based configuration; hence, the ranking card is displayed only if the feature is enabled for the Fleet.

- **DriverStars:** DriverStars are awarded to recognize safe driving behavior. DriverStars have a positive impact on your GreenZone Score. You can view all DriverStars in this section.
- **Alerts:** Displays the total number of alerts generated by you in the selected duration.
- **Notifications:** You will receive notifications about weekly review sessions and alerts shared by the Safety Manager. You can view Alerts and comments shared by your Safety Manager by tapping **Notifications**
