

Notice of Palmetto Bay Park Capital Project Improvements

The Village of Palmetto Bay has initiated the following capital project improvement for Palmetto Bay Park to enhance the enjoyment and overall visitor experience. This may result in park closures until completion of projects (closures are indicated below, if any).

Palmetto Bay Park Capital Project Improvements:

In an effort to facilitate access within Palmetto Bay Park, the following projects were completed:

- 1. Golf Cart Entry to Park – Completed** ✓
- 2. Park's New South Entrance – Completed** ✓

As a part of the park's capital improvement program, the following projects have been completed or are underway:

- 1. Playground Repairs – Completed** ✓
- 2. Softball Field Scoreboards – In Progress**
- 3. Skate Park Renovations - In Progress**
- 4. Irrigation System Renovations – In Progress**
- 5. Repairs to Asphalt Walking Trails – In Progress**

At this time there are no closures at Palmetto Bay Park. We appreciate your understanding as we continue to ensure our parks are held to the highest standards for our patrons.

If you have any questions, please contact us at 305.259.1255.

Project Completed

New Golf Cart Entrance at Palmetto Bay Park (adjacent to intersection of SW 176 Street/94 Avenue)

A new gated entry has been completed to accommodate golf carts only. This entry/exit, located at the NE corner of the park (SW 176 Street/94 Avenue) provides convenient access to the park without having to travel US 1 to reach the main park entrance or the newly opened Park Drive on the western perimeter the park. This access will be opened the same hours as all other park entry locations.

Park's New South Entrance

Project Completed

- Again, to avoid the stress and congestion of US 1 travel, park patrons may enter the park via the newly open park service road aptly referred to as 'Park Drive'; accessed from SW 180 Street/95 Avenue-gated at SW 176 Street. Please note this is a one-way road to the north. Vehicles exiting the park must go through the park's main gate to US 1.

Project Completed

- All repairs for the Children's Playground have been completed, including partial replacement of Pour-in-Place surface. Also, a toddler play area (ages 2 & under) has been installed in the area previously housing the Red Disc Swing. Note: the Village has procured a consultant for recommendation/design of improvements along the playground's western landscape areas to improve stabilization.
- As part of the playground refurbishing, installation of new aluminum picket fencing along the west side of the playground has been completed.

Playground Repairs

In progress

- Researching possible installation of protective bollards along exterior of fencing/park drive.

Softball Field Scoreboards

Project Updates 6-13-25

- Six (6) new Fairplay Scoreboards have been installed at Palmetto Bay Park
- Pending remaining inspections/close-out of required permits, and damage restoration of turf and walkway adjacent to Fields 5/6
- Six (6) Fairplay Scoreboard Controls/Cases have been turned over to Park
- Painting of scoreboard support columns on Fields 1-5 pending via other contractor

New Fairplay scoreboard control

Softball Field Scoreboards

Project Updates 5-29-25

Installation of scoreboards

Project Updates 5-14-25

- The existing six (6) softball field scoreboards, which are in excess of 15 years of service and in disrepair, will soon be replaced with new state-of-the-art scoreboards. I2Visual is under contract for the procurement and installation of new Fairplay scoreboards scheduled for installation by September of this year.
- 5-19-25 underground clearance completed for Field 6 posts/Ibeams installation
- 5-20-25 post holes cored and footers poured; followed by inspection

FAIR-PLAY SCOREBOARD REPLACEMENTS (5 ON EXISTING STRUCTURES 1 ON NEW STRUCTURE)
