

HazMat Informer – Driver Registration Instructions

Carriers that subscribe to TPI's HazMat Informer mobile application product may provide the following instructions to their drivers so they may start using the app.

To register your account using the Zonar Tablet with the Icon already loaded on your App page.

1. Open the Zonar Table Home page, click on the Application page button in the center bottom of the screen.
2. On the application page click on the HazMat Informer Icon and click the new user button.
3. Next you will need to register your account,
4. On the registration screen enter your company's **DOT number** in the **Company Code** box. If you need your company's DOT number (refer to either side of your tractor) or please contact your supervisor. **SWIFT Code 54283 no zero**
5. Enter your company assigned **Driver Code** in the box labeled **Driver Code**.
6. Next enter your full **Name**, valid **Email** address, desired **Password** (twice to confirm) and click **Register** at the bottom. Then **click OK**.
7. You will receive an email from the app to the email address you provided. Once you have received the email open it and **click the link inside the email** to confirm the email address.
8. You will see a **Validation Complete** message on the screen.
9. Return to the **HazMat Informer App Logon Screen**.
10. Enter your **Email Address** and **Password** set during the registration process.
11. Click the **Log On** button.
12. You are ready to use the HazMat Informer app

HazMat Informer – Driver Registration Instructions

Troubleshooting Issues:

User is receiving error message “email too short” and could not register.

Solution steps:

- Have the user take a picture of the error message and send to you
- Have the user provide to you their email address they wish to register
- Together with the user try to register using their email address and driver code

If issues continue, please send support@tpitechnology.com and email including the pic of the error message and the user’s email address

User did not receive the confirmation email from TPI to activate acct registration.

Solution step:

Check spam or trash folders for TPI email and click on activation link

HINT - Link is active for only 1 hour and the HI App must be un-installed and reinstalled if activation does not happen within 60 minutes.

Once the HazMat Informer is running

Reminder: During a briefing, please ensure you hit the finish button to submit your hazmat details to the SWIFT application program interface which then allows you to complete your loaded call.

HazMat Informer – Driver Registration Instructions
