

bullig is very Pet, PSD, ESA, SDiT ..friendly

Service Dogs, that meet the ADA requirements, **are allowed to join inside no matter what.**

PS. Please don't show us any kind of Proof or a Certificate. We don't need proof if you can answer the ADA Questions and assure your Dog is a Service Dog (...and let's be open here...come ooooooon, those **certificates** are normally just owned by someone that actually does not have a service dog, like having a fake ID when you are 17 and want to hit a bar. The ADA and almost every Service Dog Holder will know. In addition these ID's make it just harder for everyone that actually needs their Service Dog)

Every other Companion is very very welcome on our Patio.

House made Peanut Butter, fresh Fruits and fresh water are included. If your best friend needs a fan let us know.

P.S. never judge a book by it's cover. Not every illness/disability that can be eased by a Service Dog is obvious on the surface.

*In Liebe,
Dein
Owilein*
