COLLAGEN BENEFITS

- Multiple studies found that taking 3-10 grams of collagen per day led to improvements in skin elasticity and hydration.
- May also promote the production of other proteins that help structure your skin, including elastin and fibrillin.
- Just as the collagen in your body deteriorates with age, so does bone mass. Studies note that collagen supplements may help inhibit the bone breakdown that leads to osteoporosis.
- In a 6 month study, 31 healthy adults experienced a significant reduction in measures of artery stiffness from the study's beginning to its end.

KEY INGREDIENTS

Hyaluronic Acid

- Improves cushioning and lubrication of tissues.
- Increases water retention, hydration, and is high in antioxidants
- May boost connective tissue repair, wound healing, and bone health
- Enhances eye health, particularly in healing dry eye
- Revitalizes skin and strengthens teeth
- Shows promise in treating osteoarthritis

Vitamin D3

- Modulates the immune system
- Provides key nutrients for cardiovascular health
- Acts as a mood and sleep regulator

Aloe Vera Gel

- Effective in treating pre-diabetes and metabolic syndrome
- Stimulates cell growth and promotes overall health
