

Why is Taxation Theft?

At Turning Point, we believe in limited government instead of big government with big government spending! Over the last week, congress passed a 1.9 trillion dollar "COVID Relief " Bill. When you divide that out, that costs \$5,750 per taxpayer in America! Then they are going to give some of us back \$1,400. And they expect us to thank them for being so "kind and caring." That is not Relief, that is Theft!
