

Trigger Warnings

She Loves Me is a comedic tale of finding love in unlucky places but it also covers several potentially triggering topics.

For those who don't know the plot, SLM (She Loves Me) contains an off-stage suicide attempt featuring a gun shot sound effect. While the attempt is unsuccessful, that fact does not negate that it is a very hard hitting scene.

On a separate but also important note, there are sexual innuendos, sudden and loud noises and some dated depictions of women being seen as unknowledgeable. None of these factors are consistently seen throughout the show; however, their presence should be noted.

This production will also include loud noises and flashing lights.
