CATERGORY	GRADE 1-10	NOTES	
ATHLETICISM	8	Great athleticism, allows him to be a good rebounder	
SHOOTING	7	Ability to shoot off the bounce from 2 and 3. Shot from 3 needs to improve and get more consistent

AMBIDEXTERITY	5	Needs to finish with his left better	
OFF. VERSITILITY	8	Scores it at all 3 levels, and can create for himself	
DEF. VERSITILITY	6	Can guard 1-3, but in a switching NBA scheme he may struggle to guard inside due to lack of strength	
IQ/FEEL	7	Good feel for the game, can find his own shot	
TRANSITION ABILITY	8	Great transition player, can get to the rim and finish	
CRITICAL FACTORS			
CHARATER	Likable high energy kid, who is humble about his abilities. Was loyal to UCONN in the recruiting process as they were one of the first high major schools to show interest.		
INJURY HISTORY	Came off elbow surgery in January, but looks to be all healed up and ready to go.		
FOCUS/MENTAL	Intense player who brings a level of energy his teammates love. Stepped into a bigger role his sophomore season and excelled.		
TOUGHNESS	Tough player who can gut it out, and wants to be on the floor competing		
POTENTIAL	James' potential is through the roof. On offense he is very skilled and can create a bucket when he needs too. Defensively he will be some what of a project but the effort is there.		
CONCLUSION			
<p>Bouknight is an electric player who can help a team as a scoring punch possibly off the bench. He can change speeds and get to the rim but also keeps the defense honest with a great pull up jumper from midrange. Once his usage went up and after the elbow surgery his 3 point percentage was down from his freshman year. If Bouknight can learn how to facilitate and create for others his role will increase.</p>
