

ANDREW'S FORMALS

RENTALS & SALES

ABOUT

Since 1969, Andrew's Formals has stood as a beacon of elegance and quality, proudly family-owned and dedicated to providing exquisite formalwear with unparalleled service. "Service is Everything" is more than a motto; it embodies the unwavering passion and commitment of siblings Nick and Carmela Alampi. This core value is intricately woven into our mission to deliver service excellence, ensuring every customer enjoys a truly remarkable journey.

Our curated collection offers both traditional and modern formalwear, catering to those who appreciate classic sophistication and contemporary flair. Whether you seek a rental, purchase, or bespoke tuxedo, our extensive range assures the perfect fit for any occasion.

Renowned for extraordinary personal service, we welcome clients as esteemed guests, crafting an inviting and refined shopping environment. Our knowledgeable team, driven by a passion for excellence, is devoted to surpassing expectations at every turn.

Discover the exceptional service and personal touch that distinguish us. At Andrew's Formals, we do not merely meet expectations—we redefine them with grace and distinction.

TESSUTO

B-Dynamic

This is an eco-friendly collection entirely made of wool, super stretch both in weft and warp. Thanks to the exclusive choice of the most prestigious raw materials, B-Dynamic revolutionizes the concept of comfort with its extraordinary anti-crease performance, offering an elegance that remain impeccable over time. It is the ideal fabric for any formal wearing occasion and is perfect for the cosmopolitan man who wishes to feel confident all day.

BREATHABLE

By absorbing moisture and returning it to the environment, the wool ensures high breathability and a constant feeling of dryness and freshness over time, leaving your garments feeling as if they've just been put on, even by the end of the day.

THERMAL COMFORT

The thermoregulation capacity of our fabrics takes shape from the intrinsic structure of the wool fibre which, thanks to its hygroscopic nature, allows it to expel internal humidity while simultaneously acting as a barrier to any external humidity, for warm garments in the winter and cool ones in the Summer.

WRINKLE FREE

Only a high resilience fabric can respond effectively to everyday stresses. We have redesigned the natural properties of wool obtaining a fabric that, after many uses, perfectly returns to its original form.

NATURAL BI-STRETCH

The natural bi-stretch method gives the fabrics superior elasticity in both directions, warp and weft. The treatment has an effect on the yarn and the fabric while still maintaining the natural breathability of the wool.

SOFT TOUCH

Comfort and innovation dictate the guidelines of every single phase of the process, from the selection of raw materials to the technological design of the yarn, and from advanced dyeing and finishing treatments to the construction of the fabric.
