

# HYDRA FACIAL

## WHAT IS HYDRAFACIAL?

A non-invasive, transformative skin health treatment for the best skin of your life. Every Hydrafacial treatment uses patented technology to deeply cleanse, extract and hydrate the skin and can be customized further with personalized boosters, LED light therapy, and lymphatic drainage to address specific skin concerns. The results are immediate, pain-free and glowing, boosting confidence with no downtime.

## WHY IS THIS TREATMENT GOOD FOR MY SKIN?

*Hydration is the foundation of healthy, radiant skin. Irritation of the skin has been proven to increase signs of aging. Hydrafacial treatments are hydrating and non-irritating.*

## AM I A CANDIDATE FOR THIS TREATMENT?

*Hydrafacial treatments are designed for all skin types, skin tones, ages and genders. Even the most sensitive skin easily tolerates a Hydrafacial treatment. Your physician or skincare professional may choose specific treatment serums and/or customize the treatment for your unique skin conditions and needs. Consult your physician or skincare professional for a skin evaluation and sensitivity test.*

## HOW LONG DOES THIS TREATMENT TAKE? IS THERE DOWNTIME OR PAIN INVOLVED?

*Hydrafacial treatments are fast and effective, taking as little as 30 minutes to deliver an immediate and lasting glow. The results are pain-free with no downtime.*

## WHAT RESULTS MAY BE EXPECTED? HOW MANY TREATMENTS ARE NEEDED?

*Many clients report seeing visible skin improvement and an even, radiant skin tone after just one treatment. The smooth results and hydration may last 5 to 7 days or even longer. We don't believe in quick fixes, so one treatment per month is recommended for improving the appearance of fine lines, wrinkles, brown spots, oily and congested skin. Continued Hydrafacial treatments are highly recommended to maintain skin health results.*

## WHAT TO EXPECT DURING AND IMMEDIATELY AFTER TREATMENT

- *Your skin may experience temporary irritation, tightness, or redness. These are all normal reactions that typically resolve within 72 hours depending on the skin sensitivity.*
- *You may experience tingling and stinging during the treatment area. These sensations generally subside within three hours of treatment.*
- *Client experiences may vary. Some people may experience a delayed onset of the previously mentioned symptoms. Contact us immediately if any unusual side effects occur or if symptoms worsen over time.*
- *You will likely see results immediately after treatment and your skin will feel smooth and hydrated for one to four weeks. For improved, longer lasting results, consider monthly Hydrafacial treatments.*
- *The treatment area is more susceptible to sunburn, sun damage and hyperpigmentation. Avoid direct sun exposure and use a minimum of SPF 40 sunscreen.*
- *Aggressive exfoliation, waxing and products containing acids should be avoided in the treatment area for a minimum of two weeks pre- and post-treatment.*
- *Avoid the use of Retin-A type products pre- and post- treatment.*

### NEXT STEPS

- *Exercise regularly*
- *Avoid tanning beds*
- *Eat a balanced diet*
- *Get plenty of sleep*
