

THINK. MODEL. LEARN.™ MATH CENTERS: ADDITION ACTIVITY GUIDE

PRODUCT INCLUDES:

1 Activity Guide

1 Storage Box

1 Instruction Tent

6 Activity Mats

12 Foam Dice

84 Gears

PURPOSE:

Empower children to independently practice addition! This center is standards aligned for grades PreK-TK and geared for skill differentiation – it is double-sided for practice on two skill levels: addition 0-6 and 0-12 with foam dice. Students also build number sense and fine motor skills as they model amounts and sum them together. This hands-on, engaging center is sure to make skill-building fun as students think, model, and learn!

SET UP:

Each activity mat will accommodate one student. Six activity mats are provided for up to six students total.

1. Choose the skill level the student will be working on and flip the mat to the appropriate side. Choose the foam dice set that matches the mat for play. Provide each child with a die that matches the level of the mat.
Please note:
Addition 0-6: Dice each have sides 1, 2, 3, 1, 2, 3.
Addition 0-12: Dice each have sides 1, 2, 3, 4, 5, 6.

2. Provide each student with 12 gears.

We recommend explaining instructions to students before independent play. Place the tent where students can see it for instruction reminders and visuals during use.

HOW TO USE:

Step 1:

Roll the die. Count the dots showing. Put that many gears into the blue box on your mat.

Step 2:

Roll the die. Count the dots showing. Put that many gears into the yellow box.

Step 3:

Put all the gears from the blue and yellow boxes into the green box. Count the gears to get the total number.

FEATURES:

REUSABLE AND DURABLE

Reusable dry erase materials offer repeated practice.

SKILL DIFFERENTIATION

Double-sided for practice on two skill levels!

TAKE IT FURTHER

Take it further with additional free resources, reproducibles, and downloadable content.

DISPLAY AND STORAGE

Store materials vertically for a space saver. Book-shaped box fits shelves taller than 12".
