## WHO AM I

I have spent 45+ years looking to answer, these three questions. Why do I exist, Who am I and What should I be doing?

My purpose is to exhort (speak life) into matters of confusion, doubt and self sabotaging behaviors.

My call is to teach foundational truths, that illuminate pathways.

My gifts are in the areas of leadership, discernment, compassion and administration.

My assignment is to walk along side of a group of people, I call **P.I.C.T.U.R.E.S.**

This stands for Pioneers, Innovators, Creators, Trailblazers, Underdogs, Revolutionaries, Extraordinaries and Strategists.

I provide clarity towards seeing the unseen. To pull that which is only created in the mind into reality, a conduit for helping visions and dreams, become tangible things.

## WHAT I DO

### Spiritual Development

\*Fulfillment - Who Am I?

What do you do when every part of your personal life, plus business life are spectacular and yet there is a void? Could the material things be good, but not fulfilling?

When you have mastered it all and it does not appease, this is your soul crying out for nourishment.

### Personal Development

\*S. W. O. T.  
Strengths, Weaknesses,  
Opportunities & Threats.

The biggest opponent you will ever face is standing in the mirror. How well are you doing at overcoming you? The competition is not other people, the competition is in the mirror and your fight is to measure up to your full potential. My role is to uncover your blind spots.

### Business Development

\*How to Serve Strategically

There is a huge difference between serving and solving. Anyone can serve, the distinction comes when problem solving and serving are combined.

The bigger the problem the bigger the impact and the bigger the impact the larger the emotional, mental, social and financial rewards.
