Imagine that your favourite fragrance turns into an exceptional form that you can touch and enjoy without end ... It melts into your skin leaving a seductive, captivating aroma. This is what **Ruby Solid Parfum** is like. This is the quintessence of luxury locked in a creamy texture.

A unique marriage of precious fragrance notes which is a source of an exceptional experience caressing your senses. A luxurious combination in which jasmine, rockrose and cashmere tree accord playfully alternate with the sweet aroma of vanilla and amberwood to eventually uncover the clear note of white oud, black musk and dry wood. Due to its creamy texture, the perfume is exceptionally durable and stays on your skin for a long time. Just a small amount of the cream is sufficient to feel the caress that stimulates all the senses.

TIP: It is best to apply the perfume with your fingers on the so-called pulse points, i.e. where the blood pulsates and the body generates heat: on the inside of the wrists, the neck, behind your ears, in your cleavage, in the crook of your elbows and at the back of your knees. Then the perfume will fantastically develop its bouquet and stay on your skin for a long time.

A CAREFULLY SELECTED COMBINATION OF PRECIOUS INGREDIENTS FOR YOUR SKIN

- ▶ **L.C.G.S MC 8.0®** reduces the negative effects of electromagnetic radiation, which includes, among others, UV radiation and blue light. In addition, it effectively protects your skin from oxidative stress and excellently contributes to the regeneration of the epidermis.
- ▶ **Tripeptid-38** is a new-generation, strong anti-wrinkle peptide that enhances the synthesis of 6 key ingredients regenerating your skin. As a result, it fills in wrinkles from the inside providing a visible effect of smoother and suppler skin.
- ▶ **An ultra-advanced antioxidant** that is activated only by UV radiation and provides long-lasting protection against free radicals. It will make you forget about a grey and tired complexion, and your skin will become more resistant to the negative effects of external factors responsible for the aging processes.
- ▶ **Low-molecular hyaluronic acid** is a natural polysaccharide that fills in the space between collagen fibres and, in consequence, perfectly hydrates the skin and makes it more elastic and rejuvenated.

REVOLUTIONARY INGREDIENTS THAT PENETRATE YOUR SKIN DURING SLEEP

- ▶ **L.C.G.S MC 8.0®** affects the synthesis of two proteins that are of key importance to a youthful appearance: fibronectin, which interacts with, among others, collagen and proteoglycans, and protein p53, which participates in DNA regeneration. Therefore, it has strong anti-aging effects – it regenerates the skin and keeps it smooth.
- ▶ **The newest, milder generation of the vitamin A derivative** is currently one of the most effective anti-wrinkle substances, which slightly lightens the skin and visibly improves its appearance.
- ▶ **Edelweiss meristem extract** prevents the effects of oxidative stress caused by the air pollution and UV radiation, and has strong lifting effects on flabby neck skin, optically lifts your cheeks and smooths out the so-called 'crow's feet'. It will make you forget about a grey and tired complexion, and your skin will become fantastically firm and more resistant to the negative effects of external factors responsible for the aging processes.
- ▶ **Shea butter** is a fat extracted from the nut of the African tree gracefully named the Mangifolia tree, which in Africa has been considered sacred and has been worshipped for thousands of years. It leaves your skin perfectly soft and hydrated.

UTIQUE

AN IDEAL COMBINATION OF INNOVATIVE INGREDIENTS THAT WILL TAKE EXCELLENT CARE OF THE DELICATE SKIN AROUND YOUR EYES

- ▶ **L.C.G.S MC 8.0®** – UV radiation and blue light have an adverse effect on the sensitive skin around the eyes – they cause oxidative stress, and also contribute to the appearance of wrinkles caused, among others, by excessive squinting. That is why the cream has been enriched with a complex that works in two ways: reducing the negative effects of electromagnetic radiation and facilitating the regeneration and smoothing of the skin, which slows down the aging processes.
- ▶ **A complex of an extract from *Albizia julibrissin* and darutoside** stimulates collagen synthesis and contributes to the skin regeneration process, optically stretching out the so-called 'crow's feet'. Additionally, it has a lifting effect on the sagging upper eyelids, making them visibly firmer.
- ▶ **Low-molecular hyaluronic acid** has a strong ability to penetrate the skin, thanks to which it increases the firmness and elasticity of the skin.
- ▶ **Cyclic peptide and ectoine** have a deeply hydrating effect and optically stretch out wrinkles, making the skin suppler.
- ▶ **Caffeine** stimulates the micro-circulation of blood, slightly lightening the unattractive dark under-eye circles.

Each step of the weight loss process has an ascribed different set of products ideally tailored to solve the body's problems occurring at that stage.

SHARE, MOTIVATE

We know that support and motivation are essential. It is the lack of those factors, that often makes us stop the weight loss process. Resigned and feeling helpless, we return to our old, unhealthy habits. With that in mind, the community was created along with the Programme – a space where all participants can share their problems, reflections and results.

ACHIEVE YOUR GOAL

Use a healthy and effective weight loss method. We guarantee that an ideally balanced 6-step plan will allow you to get rid of the excess pounds easily and safely. Thanks to the FIT6 Programme you will enjoy not only a slim figure but also excellent health and a great mood.

6 STEPS TO AN IDEAL FIGURE

The Programme consists of three stages divided into six steps and an additional stage during which the participant switches to the so-called balanced diet stabilisation. Each step takes a month. The duration of the diet depends on how much weight you want to lose. The more pounds you want to lose, the more steps you need to take to go. You may end the diet at any time and start a 2-month maintenance period.
